

MIAMI BEACH

COMMITTEE MEMORANDUM

TO: Finance and Economic Resiliency Committee Members

FROM: Eric Carpenter, City Manager

DATE: October 18, 2024

TITLE: DISCUSS INSTALLING SHADE ABOVE CHILDREN'S PLAYGROUND
EQUIPMENT IN CANOPY PARK

RECOMMENDATION

The Administration recommends installing a shade above the children's playground equipment in Canopy Park be placed on the Parks and Recreation Department's 5-year capital plan for consideration during the budget process.

BACKGROUND/HISTORY

During the September 11, 2024 Commission meeting, Commissioner Kristen Rosen Gonzalez referred a discussion on installing shade above the children's playground equipment in Canopy Park to the Finance and Economic Resiliency Committee and the Public Safety and Neighborhood quality of Life Committee.

ANALYSIS

The playground at Canopy Park was originally designed to be shaded by the Mahogany trees as they grow in over the years along with other trees planted by the City. Currently, there are several points in the day in which the playground temperatures are very high, making it unpleasant for parents to take their children.

The Parks and Recreation Department (the "Department") has come up with two shade solution options for the playground. The first option is to install several shade sails around the existing tree canopy. This would not provide full coverage of the playground, but it is a more economical option estimated to cost \$265,000. The second option would be to install a shade structure over the entire playground; however, various trees will need to be relocated. The estimated cost for this option is \$429,000.

If directed to proceed with either option, the Department will work with vendors to determine the final budget of the project.

FISCAL IMPACT STATEMENT

The installation of a shade above the existing children's playground equipment in Canopy Park is an estimated \$265,000 to \$429,000, depending on the option selected.
