RECOMMENDATION

BACKGROUND/HISTORY

ANALYSIS

The proposed Ordinance, sponsored by Commissioner David Suarez, is submitted for consideration by the Mayor and City Commission.

Due to the significant increase in commercial vessel activity the City has experienced in the last several years, particularly since the COVID-19 pandemic, there have been many quality-of-life complaints related to commercial charter vessel activity including unruly commercial charter and boat rental patrons, disturbances caused by public intoxication, people engaging in excessively loud arguments and playing excessively loud music, and public urination.

As a result, the Mayor and City Commission adopted Ordinance Nos. 2023-4550 and 2024-4596 (the "Ordinances"), which limit commercial vessel activity at public marinas and marine facilities, and private marinas and marine facilities, respectively, each day from 9 p.m. until 7 a.m. the following day.

While many of the complaints and issues emanating from public and private marinas and marine facilities have been greatly reduced since the Ordinances were enacted, the City nonetheless still experiences some issues involving disturbances, noise, and arrests for illegal conduct, due to nighttime commercial vessel departures.

Therefore, in an attempt to ameliorate these issues, the proposed Ordinance would prohibit commercial vessels from departing any public or private marina or marine facility from 7:00 p.m. until 7:00 a.m. the following day, with an exception provided for commercial fishing vessels, commercial diving vessels, licensed towing vessels, and educational "eco" or nature tours.
