2021 - Modify Previous Board Order to Allow New Operator— VENDÔME

Queuing Plan

VENDOME – 743 WASHINGTON AVENUE

UPDATED QUEUING PLAN

I am providing an updated and detailed explanation of our queue line management system at Vendome Miami Nightclub, located at 743 Washington Ave, Miami Beach, FL 33139. This revision is in response to the concerns raised by Code Compliance regarding the use of the sidewalk for our queue line. We have since restructured our queue process to ensure it is fully compliant with city regulations.

Background:

In the past, our queue line would extend onto the public sidewalk, resulting in concerns about blocking pedestrian traffic. Additionally, our previous process involved a single checkpoint where both ID verification and pat-down/bag checks occurred, which caused congestion and inefficiency.

The queue typically forms at the very beginning of our operations, specifically between 12:00 AM and 1:00 AM, as this is when we open our doors to patrons. We have taken steps to manage this initial surge of guests in an organized and efficient manner.

Revised Queue Line Management:

1. Two-Phase Queue System:

- **Phase One: ID Checkpoint**

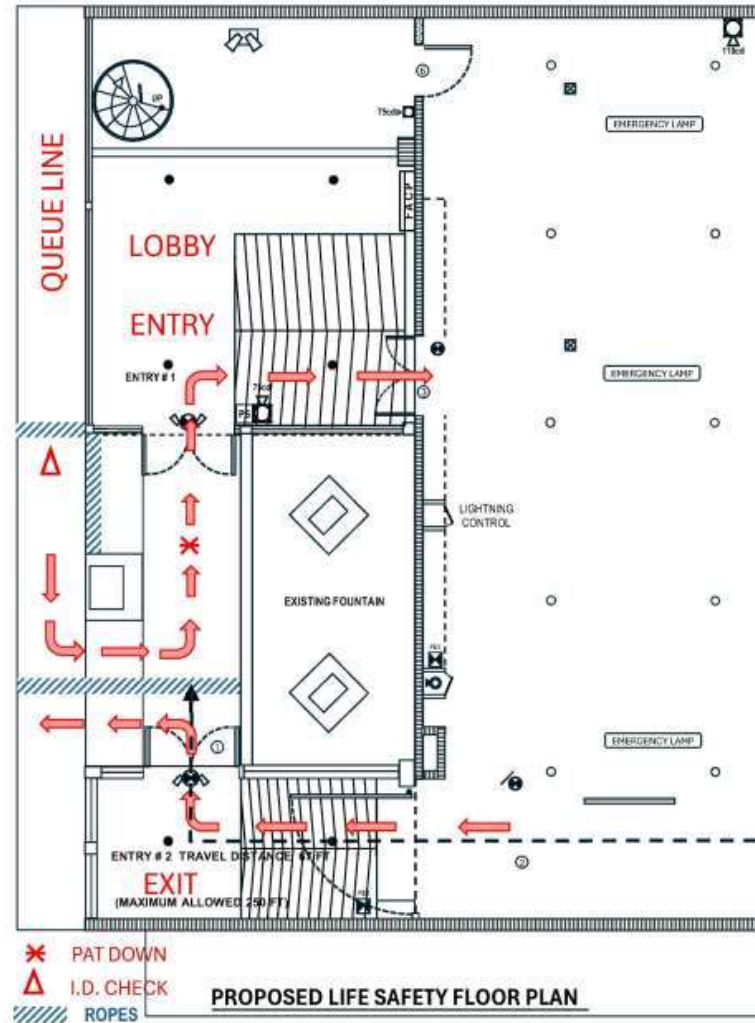

The first checkpoint is positioned at the start of the queue, entirely within our property on the left side when facing the building. Here, two security personnel are stationed to verify patrons' IDs and ensure they meet age requirements before entering the club. This helps filter the queue early and keeps the flow moving smoothly.

- **Phase Two: Pat-Down and Bag Check**

After passing the ID checkpoint, the line proceeds around the column on our property, leading to the second checkpoint. At this point, patrons undergo a thorough pat-down and bag check. This separation of duties allows each security task to be performed efficiently without creating bottlenecks, as was the case in our previous single-checkpoint system.

Dear Mr. Mooney and Mr. Belush:

I am a resident of the City of Miami Beach. A revocation/modification hearing is set before the Planning Board on November 26, 2024, regarding the Conditional Use Permit at 743 Washington Avenue for Mansourandco, LLC d/b/a Vendome (File No. PB21-0442).

I have reviewed the Staff Report & Recommendation for this matter and note it does not include violations CUP2024-00078 issued on 11/1/2024 for queuing on the sidewalk, and CC2024-18873 issued on 11/1/2024 for obstructing the sidewalk. The cause of the habitual queuing and obstruction of the public sidewalk outside Vendome is the weekly live events and concerts it promotes at its venue that has a limited capacity of only 379 persons.

Vendome promotes its weekly concerts featuring cultural icons like “50 Cent” across a wide array of social media platforms. No “queuing plan” or CUP conditions can control the number of fans that show up in the hopes of watching a world-renowned artist perform. Particularly where Vendome does not have the capacity to accommodate the size of the crowds these famous artists attract. The only way to stop the chronic queuing and obstruction of the public sidewalk outside Vendome is to modify its CUP to prohibit promoted events. I strongly urge you to protect the quality of life of the residents and recommend to the Planning Board that it modify the CUP to prohibit promoted events.

I have grown so tired and disillusioned with this process that favors nightclubs over residents that I hired a private investigator to document Vendome’s takeover of the public sidewalk. The report is attached and shows Vendome’s patrons queuing and obstructing the public sidewalk at all hours of the night on November 1, 2024. If you take the time to review the report and watch the video, you will see why prohibited events must be prohibited.

Please include my email and attached report in the materials you distribute to the Planning Board members. Thank you.

Sincerely,

Disillusioned Resident
