

# MIAMI BEACH

## COMMISSION MEMORANDUM

TO: Honorable Mayor and Members of the City Commission

FROM: Eric Carpenter, City Manager

DATE: February 3, 2025 2:10 p.m. Public Hearing

TITLE: A RESOLUTION OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, ACCEPTING, FOLLOWING A PUBLIC HEARING, THE RECOMMENDATION OF THE PUBLIC SAFETY AND NEIGHBORHOOD QUALITY OF LIFE COMMITTEE, AT ITS DECEMBER 13, 2024 MEETING, AND DIRECTING THE ADMINISTRATION TO PROCEED WITH THE IMPLEMENTATION OF THE TRAFFIC CALMING MEASURES ON MERIDIAN AVENUE BETWEEN 42ND AND 47TH STREET, INCLUDING IDENTIFYING THE APPROPRIATE AREAS WHERE THESE MEASURES WILL BE IMPLEMENTED, SUBJECT TO A FUNDING APPROPRIATION IN THE FISCAL YEAR 2026 BUDGET PROCESS.

### **RECOMMENDATION**

The City Administration ("Administration") recommends that the Mayor and City Commission ("City Commission") adopt the Resolution pursuant to the recommendation of the Public Safety and Neighborhood Quality of Life Committee ("PSNQLC" or "Committee").

### **BACKGROUND/HISTORY**

At the October 30, 2024 City Commission meeting, at the request of Vice-Mayor Alex Fernandez and Commissioner Joseph Magazine, the Mayor and City Commission ("City Commission") referred an agenda item (C4 AM) to the PSNQLC to discuss the potential implementation of traffic calming measures on Meridian Avenue between 42 Street and 47 Street.

Meridian Avenue is a local roadway in the Mid-Beach portion of the City of Miami Beach ("City"). This roadway provides north/south connectivity between State Road ("SR") 112/41 Street on the south and W 47 Court on the north. Meridian Avenue is owned, operated, and maintained by the City; notwithstanding, pursuant to the Miami-Dade County ("County") Home Rule Charter, the County has jurisdictional authority and purview over traffic engineering functions, traffic flow, and traffic control devices on local roadways, including within municipalities.

The current posted speed limit on Meridian Avenue is 25 miles per hour. In 2022, as part of the Nautilus Neighborhood Traffic Calming General Obligation Bond ("GOB") Project, the City installed two (2) traffic circles and 10 speed tables throughout the neighborhood. Furthermore, the Meridian Avenue corridor currently has green bicycle lanes in both directions from 41 Street on the south to 48 Street on the north.

At the December 13, 2024 PSNQLC meeting, the Committee recommended to proceed with the installation of temporary speed cushions along Meridian Avenue between 42 Street and 47 Street.

### **ANALYSIS**

The Transportation and Mobility Department completed the Nautilus Neighborhood Circulation and Traffic Calming Study ("Traffic Study") to identify streets in the neighborhood experiencing speeding and/or high cut-through traffic volumes; determine whether and where traffic calming

measures are warranted; and determine the type of traffic calming measure(s) for each identified location to reduce speeding and/or cut-through traffic in the neighborhood. The Traffic Study area encompassed the Nautilus neighborhood, which is bounded by 41 Street to the south, 48 Street to the north, Meridian Avenue to the east, and Alton Road to the west.

The Traffic Study provided recommendations for traffic calming measures on individual roadway segments and intersections, based on the daily traffic volumes, 85th percentile speeds, crashes, and complaints received from residents. The Traffic Study found that speeding was occurring on Meridian Avenue south of 44 Court, highlighting the need for traffic calming improvements on Meridian Avenue.

As part of the City's adopted traffic calming process, a ballot survey ("survey") is conducted to gauge community support for implementation of traffic calming improvements. Miami-Dade County Department of Transportation and Public Works ("DTPW") requires 100% approval from all property owners directly adjacent to the locations where the recommended traffic calming devices are proposed to be installed. While Meridian Avenue was evaluated as part of the Traffic Study, and the data collected warranted traffic calming measures, the proposed speed tables along Meridian Avenue were not supported by the directly affected property owners. As such, the City did not proceed with the implementation of the speed tables along Meridian Avenue as part of the GOB Project.

In preparation for this discussion item, the Transportation and Mobility Department reviewed the Traffic Study to ascertain the original locations where speed tables were recommended along Meridian Avenue. Based on the review, the following three (3) strategic locations were identified for the potential installation of raised speed tables. The pair of addresses below are opposite each other as the speed tables would span east/west from one side of Meridian Avenue to the other.

- 4585 Meridian Avenue/4584 Meridian Avenue
  - Alternate location at 4580 Meridian Avenue/4581 Meridian Avenue
- 4460 Meridian Avenue/4475 Meridian Avenue
- 4255 Meridian Avenue/Miami Beach Nautilus Middle School

To reduce vehicular speeds and improve safety on Meridian Avenue in the short-term, the Transportation and Mobility Department recommended the installation of temporary rubberized speed cushions, in advance of permanent speed tables. However, it is important to note that County review and approval is required prior to the installation of the temporary rubberized speed cushions in addition to 100% approval from all property owners directly adjacent to the locations where the recommended traffic calming devices are proposed to be installed. However, per DTPW's guidelines, in lieu of 100% approval from all property owners directly adjacent to the locations where the recommended traffic calming devices are proposed to be installed, the City may adopt a resolution, after a public hearing, requesting DTPW to consider the proposed traffic calming devices.

### **FISCAL IMPACT STATEMENT**

The estimated cost for design and installation of temporary speed cushions at three (3) locations is approximately \$81,000. Funding has not been identified, budgeted, or appropriated at this time.

Should the City Commission adopt a resolution accepting the recommendation of the PSNQLC, the Administration will include the proposed improvements for funding consideration through the Fiscal Year 2026 budget development process.

**Does this Ordinance require a Business Impact Estimate?**  
(FOR ORDINANCES ONLY)

If applicable, the Business Impact Estimate (BIE) was published on:  
See BIE at: <https://www.miamibeachfl.gov/city-hall/city-clerk/meeting-notice/>

**FINANCIAL INFORMATION**

**CONCLUSION**

Should the City Commission adopt a resolution accepting the recommendation of the PSNQLC, the Administration is prepared to engage one of the City's pre-qualified rotational transportation consultants, subject to City Commission approval of a funding appropriation through the Fiscal Year 2026 budget process, for design, permitting and implementation of temporary speed cushions on Meridian Avenue between 42 Street and 47 Street.

**Applicable Area**

Middle Beach

**Is this a "Residents Right to Know" item, pursuant to City Code Section 2-17?**

Yes

**Is this item related to a G.O. Bond Project?**

No

**Was this Agenda Item initially requested by a lobbyist which, as defined in Code Sec. 2-481, includes a principal engaged in lobbying?** No

If so, specify the name of lobbyist(s) and principal(s): N/A

**Department**

Transportation and Mobility
