No building permit may be issued unless and until all conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of a Certificate of Appropriateness does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board-approved plans, this approval does not mean that such handicapped access is not required. When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

That the special conditions and circumstances do not result from the action of the applicant;

That granting the variance requested will not confer on the applicant any special privilege that is denied by this Ordinance to other lands, buildings, or structures in the same zoning district;

Failure to comply with this condition within the specified time shall result in notice and a hearing before the Board to revoke approval of the variances granted herein.
4. The applicant shall obtain a full building permit within eighteen months (18) months from the date of this hearing. If the full building permit is not obtained within the specified time limits, the applicant shall, prior to expiration of such period, apply to the Board for an extension of time.
