RECOMMENDATION

The Administration recommends that the City Commission approve the subject ordinance at First Reading and schedule a Second Reading public hearing for July 24, 2024.

BACKGROUND/HISTORY

On December 13, 2023, at the request of Commissioner Tanya K. Bhatt, the City Commission referred a discussion pertaining to the recruitment of qualified architects and landscape architects for City Land Use Boards (C4 Q) to the Land Use and Sustainability Committee (LUSC).

On February 26, 2024 the LUSC discussed the item and recommended that the City Commission refer an ordinance amendment to the Planning Board to provide more options within the architect and landscape architect categories of all land use boards (LUB).

On March 13, 2024, at the request of Commissioner Tanya K. Bhatt, the City Commission referred an ordinance to the Planning Board to amend the Land Development Regulations of the City Code (LDRs) to expand the LUB architect and landscape architect membership categories to include additional options for non-registered design professionals (item C4 O).

ANALYSIS

Each of the City's LUBs have different requirements for architecture or landscape architecture professionals, as follows:

- Design Review Board: a minimum of one (1) architect and one (1) landscape architect registered in the State of Florida.

- Historic Preservation Board: a minimum of one (1) architect registered in the State of Florida.
- Board of Adjustment: a minimum of one (1) architect registered in the State of Florida.
- Planning Board: a minimum of one (1) architect or landscape architect registered in the State of Florida. However, for the Planning Board, there is an option for a member of the faculty of a school of architecture or a professional practicing in the field of architectural or urban design or urban planning to fill this membership position.

In the past, an issue raised by architecture and landscape architecture professionals when considering whether to seek appointment to a City of Miami Beach LUB is the ability to work on projects within the City. Often potential board members are concerned about a conflict with Section 2-459 of the City Code, pertaining to prohibited appearances. Specifically, Section 2-459 of the Code prohibits professionals, whether directly or indirectly, from engaging in any lobbying activity within the city.

Having development review boards with balanced perspectives, as well as practical experience in the fields of architecture or landscape architecture, is highly desirable. To expand upon the membership categories for architect and landscape architect the attached ordinance includes the following modifications for the Design Review Board, Historic Preservation Board, and Board of Adjustment:

Design Review Board:

1. One architect registered in the United States; or a design professional practicing in the field of architecture with a minimum of 10 years of experience working in an office under an architect registered in the United States.
2. One landscape architect registered in the State of Florida; or a design professional practicing in the field of landscape architecture with a minimum of 10 years of experience working in an office under a landscape architect registered in the State of Florida.

Historic Preservation Board:

1. An architect registered in the State of Florida with practical experience in the rehabilitation of historic structures; or a design professional practicing in the field of architecture with a minimum of 10 years of experience working in an office under an architect registered in the State of Florida with experience in the rehabilitation of historic structures.

Board of Adjustment:

1. One (1) member shall be an architect registered in the State of Florida, or a design professional practicing in the field of architecture with a minimum of 10 years of experience working in an office under an architect registered in the United States.

There is no stand-alone landscape architecture position for the Historic Preservation Board, Board of Adjustment, or Planning Board. As the Planning Board already provides sufficient options for the Architect position no changes are proposed to the membership categories of the Planning Board.

PLANNING BOARD REVIEW

On May 28, 2024, the Planning Board held a public hearing and transmitted the proposed ordinance to the City Commission with a favorable recommendation (6-0).
