#### Artistic concept

Live artistic performances will be incorporated into the experience, as will amplified and live music. There are approximately five to eight performances throughout the evening, spanning approximately five to 10 minutes at a time.

These performances include nine to twelve entertainers.

The intent is to create a high-end, old school supper club, where food, performance and ambiance come together to excite the senses.

# QUEUEING

## PREVIOUSLY APPROVED YARDHOUSE

July 24, 2012, Planning Board Order File No.: 2069

6. Any queueing of patrons shall occur within the property only, as proposed by the applicant.
7. In the event there is queueing of people to gain entrance to the establishment, restaurant or security staff shall monitor the crowds to ensure that they do not interfere with the free-flow of pedestrians on the public sidewalk.

## PROPOSED QUEUEING

No queueing is anticipated. The performances at the restaurant are continuous throughout the evening, as such, table seating will also be continuous. The constant flow of table seating will prevent unnecessary queueing outside of the space. Nevertheless, if at any time outdoor queueing results, then same would occur within the property, along the south property line, surrounded by screening and landscape elements.
