

# MIAMI BEACH

## PLANNING DEPARTMENT

### Staff Report & Recommendation

### Design Review Board

TO: DRB Chairperson and Members

DATE: December 10, 2024

FROM: Thomas R. Mooney, AICP  
Planning Director

SUBJECT: DRB24-1047  
**1974 Marseille Drive**

An application has been filed requesting Design Review Approval for a new four-story multi-family building with one or more waivers, to replace an existing residence on the site.

#### **RECOMMENDATION:**

Approval with Conditions.

#### **LEGAL DESCRIPTION:**

Lot 3 and Lot 4 less E 25 Feet, Block 35, of "ISLE OF NORMANDY - MIAMI VIEW SECTION PART 3" according to the plat thereof as recorded in Plat Book 40, at Page 33, of the Public Records of Miami-Dade County, Florida.

general

#### **SITE DATA:**

Zoning: RM-1  
Future Land Use: RM-1  
Lot Size: 9,099 SF  
Proposed FAR: 11,292 SF/ 1.24  
Maximum FAR: 11,373.75 SF/ 1.25  
\*As represented by the applicant  
Height:  
Proposed: 48'-1" / 4-Story  
Maximum: 50'-0"  
Highest Projection: 55'

Provided Parking: 11 Spaces

Grade: +4.44' NGVD  
Base Flood Elevation: +8.00' NGVD  
Adjusted Grade: +6.22' NGVD  
Finished Floor Elevation: +21.66' NGVD  
Proposed Garage Elev. Clearance: 12'-0" from  
BFE + 1' freeboard  
Required Garage Elev. Clearance: 12'-0" from  
BFE + 1' freeboard

Existing Use: Single Family Residential  
Proposed Use: Multi-family residential  
Residential Units: 12 Units  
Required Parking: NA

#### **Surrounding Properties:**

East: 3-story multi-family building  
North: 2-story 1945 multi-family building  
South: 4-story multi-family building  
West: 2-story 1946 multi-family building

#### **THE PROJECT:**

The applicant has submitted plans entitled "Sandbox", as prepared by **Red Octopus LLC**, dated, signed and sealed September 6, 2024.

The applicant is proposing a new four-story, multi-family building with a total of twelve units and a rooftop amenity.

**COMPLIANCE WITH ZONING CODE:**

A preliminary review of the project indicates that the application, as proposed, appears to be consistent with the following sections of the City Code. This shall not be considered final zoning review or approval. These and all zoning matters shall require final review and verification by the Zoning Administrator prior to the issuance of a Building Permit.

**CONSISTENCY WITH 2040 COMPREHENSIVE PLAN**

A preliminary review of the project indicates that the proposed **multi-family residential** use appears to be **consistent** with the Future Land Use Map of the Comprehensive Plan.

**COMPLIANCE WITH DESIGN REVIEW CRITERIA, SECTION 2.5.3.1:**

Design review encompasses the examination of architectural drawings for consistency with the criteria stated below, with regard to the aesthetics, appearance, safety, and function of any new or existing structure and physical attributes of the project in relation to the site, adjacent structures and surrounding community. The design review board and the planning department shall review plans based upon the below stated criteria, criteria listed in neighborhood plans, if applicable, and applicable design guidelines. Recommendations of the planning department may include, but not be limited to, comments from the building department and the public works department.

- a. The existing and proposed conditions of the lot, including but not necessarily limited to topography, vegetation, trees, drainage, and waterways.

**Satisfied**

- b. The location of all existing and proposed buildings, drives, parking spaces, walkways, means of ingress and egress, drainage facilities, utility services, landscaping structures, signs, and lighting and screening devices.

**Satisfied**

- c. The dimensions of all buildings, structures, setbacks, parking spaces, floor area ratio, height, lot coverage and any other information that may be reasonably necessary to determine compliance with the requirements of the underlying zoning district, and any applicable overlays, for a particular application or project.

**Satisfied**

- d. The color, design, selection of landscape materials and architectural elements of Exterior Building surfaces and primary public interior areas for Developments requiring a Building Permit in areas of the City identified in section 2.5.3.2.

**Partially Satisfied; See Staff Analysis. Staff recommends full screening of the garage level.**

- e. The proposed site plan, and the location, appearance and design of new and existing Buildings and Structures are in conformity with the standards of this Ordinance and other applicable ordinances, architectural and design guidelines as adopted and amended periodically by the Design Review Board and Historic Preservation Boards, and all pertinent master plans.

**Satisfied**

- f. The proposed Structure, and/or additions or modifications to an existing structure, indicates a sensitivity to and is compatible with the environment and adjacent Structures, and enhances the appearance of the surrounding properties.

**Satisfied**

- g. The design and layout of the proposed site plan, as well as all new and existing buildings shall be reviewed so as to provide an efficient arrangement of land uses. Particular attention shall be given to safety, crime prevention and fire protection, relationship to the surrounding neighborhood, impact on contiguous and adjacent Buildings and lands, pedestrian sight lines and view corridors.

**Satisfied**

- h. Pedestrian and vehicular traffic movement within and adjacent to the site shall be reviewed to ensure that clearly defined, segregated pedestrian access to the site and all buildings is provided for and that all parking spaces are usable and are safely and conveniently arranged; pedestrian furniture and bike racks shall be considered. Access to the Site from adjacent roads shall be designed so as to interfere as little as possible with traffic flow on these roads and to permit vehicles a rapid and safe ingress and egress to the Site.

**Satisfied**

- i. Lighting shall be reviewed to ensure safe movement of persons and vehicles and reflection on public property for security purposes and to minimize glare and reflection on adjacent properties. Lighting shall be reviewed to assure that it enhances the appearance of structures at night.

**Not Satisfied; a lighting plan has not been submitted.**

- j. Landscape and paving materials shall be reviewed to ensure an adequate relationship with and enhancement of the overall Site Plan design.

**Satisfied**

- k. Buffering materials shall be reviewed to ensure that headlights of vehicles, noise, and light from structures are adequately shielded from public view, adjacent properties and pedestrian areas.

**Not Satisfied; Staff recommends the garage be fully screened from the exterior.**

- l. The proposed structure has an orientation and massing which is sensitive to and compatible with the building site and surrounding area and which creates or maintains important view corridor(s).

**Satisfied**

- m. The building has, where feasible, space in that part of the ground floor fronting a street or streets which is to be occupied for residential or commercial uses; likewise, the upper floors of the pedestal portion of the proposed building fronting a street, or streets shall have residential or commercial spaces, shall have the appearance of being a residential or commercial space or shall have an architectural treatment which shall

buffer the appearance of the parking structure from the surrounding area and is integrated with the overall appearance of the project.

**Partially Satisfied; See k. above.**

- n. The building shall have an appropriate and fully integrated rooftop architectural treatment which substantially screens all mechanical equipment, stairs and elevator towers.

**Satisfied**

- o. An addition on a building site shall be designed, sited and massed in a manner which is sensitive to and compatible with the existing improvement(s).

**Not Applicable**

- p. All portions of a project fronting a street or sidewalk shall incorporate an architecturally appropriate amount of transparency at the first level in order to achieve pedestrian compatibility and adequate visual interest.

**Satisfied**

- q. The location, design, screening and buffering of all required service bays, delivery bays, trash and refuse receptacles, as well as trash rooms shall be arranged so as to have a minimal impact on adjacent properties.

**Not Applicable**

- r. In addition to the foregoing criteria, subsection [118-]104(6)(t) of the city Code shall apply to the design review board's review of any proposal to place, construct, modify or maintain a wireless communications facility or other over the air radio transmission or radio reception facility in the public rights-of-way.

**Not Applicable**

- s. The structure and site complies with the sea level rise and resiliency review criteria in chapter 7, article I, as applicable.

**Not Satisfied; see below.**

#### **COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA**

Section 7.1.2.4(a)(i) of the Land Development Regulations establishes review criteria for sea level rise and resiliency that must be considered as part of the review process for board orders. The following is an analysis of the request based upon these criteria:

- (1) A recycling or salvage plan for partial or total demolition shall be provided.

**Not Satisfied**

**A recycling plan shall be provided as part of the submittal for a demolition/building permit to the building department.**

- (2) Windows that are proposed to be replaced shall be hurricane proof impact windows.

**Satisfied**

- (3) Where feasible and appropriate, passive cooling systems, such as operable windows, shall be provided.

**Satisfied**

- (4) Resilient landscaping (salt tolerant, highly water-absorbent, native or Florida friendly plants) shall be provided, in accordance with Chapter 4 of the Land Development Regulations.

**Satisfied**

- (5) The project applicant shall consider the adopted sea level rise projections in the Southeast Florida Regional Climate Action Plan, as may be revised from time-to-time by the Southeast Florida Regional Climate Change Compact. The applicant shall also specifically study the land elevation of the subject property and the elevation of surrounding properties.

**Satisfied**

- (6) The ground floor, driveways, and garage ramping for new construction shall be adaptable to the raising of public rights-of-ways and adjacent land and shall provide sufficient height and space to ensure that the entry ways and exits can be modified to accommodate a higher street height of up to three (3) additional feet in height.

**Satisfied**

- (7) In all new projects, all critical mechanical and electrical systems shall be located above base flood elevation. Due to flooding concerns, all redevelopment projects shall, whenever practicable, and economically reasonable, move all critical mechanical and electrical systems to a location above base flood elevation.

**Satisfied**

- (8) Existing buildings shall be, where reasonably feasible and economically appropriate, elevated up to base flood elevation, plus City of Miami Beach Freeboard.

**Not Applicable**

- (9) When habitable space is located below the base flood elevation plus City of Miami Beach Freeboard, wet or dry flood proofing systems will be provided in accordance with Chapter of 54 of the City Code.

**Not Applicable**

- (10) In all new projects, water retention systems shall be provided.

**Satisfied; additional information will be required at the time of building permit in order to demonstrate compliance.**

- (11) Cool pavement materials or porous pavement materials shall be utilized.

**Satisfied; additional information will be required at the time of building permit in order to demonstrate compliance.**

- (12) The project design shall minimize the potential for a project causing a heat island effect on site.

**Satisfied; additional information will be required at the time of building permit in order to demonstrate compliance.**

**STAFF ANALYSIS:**  
**DESIGN REVIEW**

The subject site is an interior parcel located on Normandy Isle. The applicant is proposing to construct a new four story, twelve-unit residential, multi-family building with ground floor parking and a shared roof top amenity. While the subject site currently contains a single-family residence, the immediate surrounding area consists of one-to four-story multi-family buildings constructed from the 1940's through the 1980s.

The project proposes 12 one-bedroom units that are approximately 800 square feet in area. The ground floor has 11 parking spaces, an entrance foyer with an elevator, two sets of stairs and an enclosed trash room. Each of the buildings four stories has three units that are organized around a corridor that runs along the west side of the building and a centrally located opening. A communal amenity deck is proposed on the roof top level.

The proposed residential building is sited on a standard RM-1 zoned, 9,099 square foot lot. The design of the building is contemporary with an amorphously shaped stucco grid that projects beyond the building's walls and frames curvilinear balconies. The ground floor along the front elevation is detailed with white wood cladding, while the fenestration is outlined in bronze metal. At each floor the design incorporates landscape planters within projecting slab edges and the roof deck is lined with plants and features a green, landscape structure the projects form the atrium that punctures from the ground floor to the sky. The stair towers are located at the northwest and southwest corners of the building are screened with horizontal metal tubes.

Overall, staff is supportive of the design. However, staff recommends the incorporation of screening along the ground floor of the garage level on both the sides (east and west) and the rear (south) elevation in an effort ensure that vehicular movement within the site does not negatively impact neighbors.

**RECOMMENDATION:**

In view of the foregoing analysis, staff recommends the application be **approved** with conditions, subject to the conditions enumerated in the attached Draft Order, which address the inconsistencies with the aforementioned Design Review and Sea Level Rise criteria.

City of Miami Beach, 1700 Convention Center Drive, Miami Beach, FL 33139, [www.miamibeachfl.gov](http://www.miamibeachfl.gov)

## MEMORANDUM

TO: Thomas R. Mooney, AICP, Director, City of Miami Beach Planning Department

FROM: José R. González, P.E., Director, City of Miami Beach Transportation & Mobility Department

DS  
JRG

DATE: October 8, 2024

SUBJECT: 1974 Marseille Drive – Traffic Impact Statement – DRB24-1047/TRN24-0021

The City of Miami Beach Transportation & Mobility Department has reviewed the subject Traffic Impact Statement submitted by the applicant as part of the Design Review Board application for the proposed redevelopment of an existing single-family home into a 5-story building with 12 multifamily residential units. The proposed 5-story building will be located at 1974 Marseille Drive in Miami Beach, Florida.

The proposed redevelopment build-out year is anticipated to be 2026. The Traffic Impact Statement associated with this application was completed following City of Miami Beach standards and the approved methodology.

### **Trip Generation Analysis**

The results of the Trip Generation Analysis indicated that the proposed redevelopment is expected to generate three (3) net new external trips during the weekday AM peak hour and four (4) net new external trips during the weekday PM peak hour. Based on the low number of additional net new trips during the week AM and PM peak hours, no traffic operational analyses were completed for any nearby intersections or the project's proposed access driveway.

### **Circulation/Maneuverability Operations**

Access to the proposed redevelopment will be provided via one (1) two-way, full-access driveway along Marseille Drive. The proposed ground level of the building provides 11 parking spaces, ten (10) standard spaces and one (1) accessible space.

Please note that all loading and refuse maneuvers will be performed on-street, and no accommodations for solid-waste trucks or other delivery vehicles were provided as part of the site's interior circulation plan.

### **Entry Gate & Queuing Analysis**

No entry gate is being proposed as part of this redevelopment.

**On-Street Parking**

To accommodate the proposed access driveway to the 12-multifamily residential unit building, the relocation of existing on-street parking spaces and modification of existing landscaped islands along the frontage of the project is necessary. Coordination with the City of Miami Beach Parking Department for the relocation of the existing parking spaces along Marseille Drive was conducted, and the Parking Department has no comments at this time, so long as the number of on-street parking spaces remains the same.

**Transportation Demand Management (TDM)**

The project's proposed Transportation Demand Management (TDM) strategies include on-site short-term and long-term bicycle parking. The project proposes ten (10) short-term bicycle parking spaces, and five (5) long-term bicycle parking spaces, located on private property.

The nearest transit stop is located near the intersection of Normandy Drive and Rue Granville, which serves the City of Miami Beach Trolley North Beach Loop and the Miami-Dade County Metrobus Routes 79 and 279. The nearest Citi Bike station is located at the intersection of Normandy Drive and Trouville Esplanade E.

**Conditions of Approval**

1. Safe-sight triangles must not contain obstructions to cross-visibility at a height between 2 and 6 feet above the pavement.
2. The City of Miami Beach Parking Department must approve the removal or reconfiguration of any existing on-street parking.
3. The applicant must coordinate with the City to properly relocate any existing trees and/or landscape within existing landscaped islands along Marseille Drive that are proposed to be modified as part of this redevelopment.

**Conclusion**

The City of Miami Beach Transportation & Mobility Department, including the Peer Review Consultant, has no further comments on the Traffic Impact Statement for the proposed 1974 Marseille Drive redevelopment project.

Please feel free to contact the City of Miami Beach Transportation & Mobility Department if you have any questions on the above.

**DESIGN REVIEW BOARD**  
**City of Miami Beach, Florida**

MEETING DATE: December 10, 2024

PROPERTY / FOLIO: **1974 Marseille Drive** 02-3210-011-0170

FILE NO: DRB24-1047

IN RE: An application has been filed requesting Design Review Approval for a new five story multi-family building with one or more waivers to replace an existing residence.

LEGAL: Lot 3 and Lot 4 less E 25 Feet, Block 35, of "ISLE OF NORMANDY - MIAMI VIEW SECTION PART 3" according to the plat thereof as recorded in Plat Book 40, at Page 33, of the Public Records of Miami-Dade County, Florida.

APPLICANT: Yanina Mauro

**ORDER**

The City of Miami Beach Design Review Board makes the following FINDINGS OF FACT, based upon the evidence, information, testimony and materials presented at the public hearing and which are part of the record for this matter:

**I. Design Review**

- A. The Board has jurisdiction pursuant to Section 2.1.3.1 of the Land Development Regulations. The property is not located within a designated local historic district and is not an individually designated historic site.
- B. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Design Review Criteria i, k, & s in Section 2.5.3.1 of the Land Development Regulations.
- C. Based on the plans and documents submitted with the application, testimony and information provided by the applicant, and the reasons set forth in the Planning Department Staff Report, the project as submitted is inconsistent with Sea Level Rise Criteria 1 in Section 7.1.2.4(a)(i) of the Land Development Regulations
- D. The project would be consistent with the criteria and requirements 2.5.3.1 and/ or Section 7.1.2.4(a)(i) if the following conditions are met:

2. Revised elevation, site plan and floor plan drawings for the proposed multi-family residential building shall be submitted to and approved by staff; at a minimum, such drawings shall incorporate the following:
  - a. The ground floor screening shall be incorporated onto the sides (east and west) and rear (south) elevations of the ground / garage level. The design and material details shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - b. The final design and details of the roof top structure encased with a green rope system shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - c. The final color, design and details of the metal tube screen system proposed on the front (north) elevation and on the of the stair towers on the rear (south) elevation and the side (west) elevation shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - d. The final color, design and details of the proposed white/wood textured cladding proposed on the ground floor of the front (west) elevation shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - e. The final design and details, including samples and color selection, of the proposed board-formed concrete cladding shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - f. The final design and details, including samples and color selection, of the cast in place concrete proposed for the elevator tower shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - g. The final color, design and details of the teak wood accents proposed on the elevations shall be submitted in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - h. The final details of all exterior surface finishes and materials, including samples, shall be submitted, in a manner to be reviewed and approved by staff consistent with the Design Review Criteria and/or the directions from the Board.
  - i. Prior to the issuance of a Certificate of Occupancy, the project Architect shall verify, in writing, that the subject project has been constructed in

accordance with the plans approved by the Planning Department for Building Permit.

2. A revised landscape plan, prepared by a Professional Landscape Architect, registered in the State of Florida, and corresponding plans shall be submitted to and approved by staff. The species, type, quantity, dimensions, spacing, location and overall height of all plant material shall be clearly delineated and subject to the review and approval of staff. At a minimum, such plans shall comply with Chapter 4-Landscape Requirements of the Miami Beach Code and shall incorporate the following:
  - a. Prior to the issuance of a building permit, the applicant shall submit a tree protection plan for all trees to be retained on site. Such plan shall be subject to the review and approval of staff, and shall include, but not be limited to a sturdy tree protection fence installed at the dripline of the trees prior to any construction.
  - b. Prior to the issuance of a building permit, the applicant shall submit a tree protection plan for all trees to be retained on site. Such plan shall be subject to the review and approval of staff, and shall include, but not be limited to a sturdy tree protection fence installed at the dripline of the trees prior to any construction.
  - c. Any necessary root and tree branch pruning with a diameter at breast height (DBH) of 2" or greater shall be approved by the City Urban Forester prior to any tree work.
  - d. Existing trees to be retained on site shall be protected from all types of construction disturbance. Root cutting, storage of soil or construction materials, movement of heavy vehicles, change in drainage patterns, and wash of concrete or other materials shall be prohibited.
  - e. Street trees shall be required within the swale at the front of the property if not in conflict with existing utilities, in a manner to be reviewed and approved by the Public Works Department.
  - f. The proposed and existing trees located within the swale shall be subject to the review and approval of Green Space and CIP.
  - g. Any proposed new street trees shall be of a planting species consistent or similar with existing street trees in the immediate area or consistent with any master street tree plan for the area, subject to the review and approval of the City Urban Forester.
  - h. Any existing plant material within the public right-of-way may be required to be removed, as the discretion of the Public Works Department.
  - i. A fully automatic irrigation system with 100% coverage and an automatic rain sensor in order to render the system inoperative in the event of rain.

Right-of-way areas shall also be incorporated as part of the irrigation system.

- j. The utilization of root barriers and Silva Cells, as applicable, shall be clearly delineated on the revised landscape plan.
- k. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all backflow preventors and all other related devices and fixtures. The location of backflow preventors, Siamese pipes or other related devices and fixtures, if any, and how they are screened with landscape material from the right-of-way, shall be clearly indicated on the site and landscape plans, and shall be subject to the review and approval of staff.
- l. The applicant shall verify, prior to the issuance of a Building Permit, the exact location of all applicable FPL transformers or vault rooms. The location of any exterior transformers and how they are screened with landscape material from the right of wall shall be clearly indicated on the site and landscape plans and shall be subject to the review and approval of staff.
- m. Prior to the issuance of a Certificate of Occupancy, the Landscape Architect or the project architect shall verify, in writing, that the project is consistent with the site and landscape plans approved by the Planning Department for Building Permit.
- n. The applicant must coordinate with the City to properly relocate any existing trees and/or landscape within existing landscaped islands along Marseille Drive that are proposed to be modified as part of this redevelopment.

**In accordance with section 2.2.4.8 of the Land Development Regulations, the applicant, the City Manager, Miami Design Preservation League, Dade Heritage Trust, or an affected person may appeal a decision of the design review board for design review approval only to the city commission, except that orders granting or denying a request for rehearing shall not be reviewed by the commission.**

**I. Variance(s)**

- A. No variance(s) were filed as part of this application.

**The decision of the Board regarding variances shall be final and there shall be no further review thereof except by resort to a court of competent jurisdiction by petition for writ of certiorari.**

**II. General Terms and Conditions applying to both 'I. Design Review Approval and 'II. Variances' noted above.**

- A. All new construction over 7,000 square feet shall be required to be, at a minimum, certified as LEED Gold by USGBC. In lieu of achieving LEED Gold certification, properties can comply with other options provided for in Section 7.1.3.2 of the Land Development Regulations, including the payment of a sustainability fee or posting a sustainability fee bond.
- B. Upon the issuance of a final Certificate of Occupancy or Certificate of Completion, as applicable, the project approved herein shall be maintained in accordance with the plans approved by the board and shall be subject to all conditions of approval herein, unless otherwise modified by the Board. Failure to maintain shall result in the issuance of a Code Compliance citation, and continued failure to comply may result in revocation of the Certificate of Occupancy, Completion and Business Tax Receipt.
- C. During construction work, the applicant shall maintain gravel at the front of the construction site within the first 15'-0" of the required front yard and including the swale (subject to the review and approval of Public Works), to mitigate disturbance of soil and mud by related personal vehicles exiting and entering the site. All construction materials, including dumpsters and portable toilets, shall be located behind the construction fence and not visible from the right-of-way.
- D. During the course of construction, all vehicles, including, but not limited to all personal vehicles, shall park within the confines of the private property, the swale directly abutting the construction site, or at alternate overflow parking sites that are not on-street metered spaces and not zoned RS. Additionally, parking of any vehicles shall be prohibited in the travel lanes of all streets.
- E. All allowable construction signage shall be attached to or situated behind the construction fence, in accordance with Section 6.3.2 of the Land Development Regulations.
- F. The applicant shall coordinate with the City's Parking Department for any modifications or elimination of existing on-street parking spaces, prior to the issuance of a building permit.
- G. The building and parking departments shall approve a construction parking plan prior to the issuance of any building permit, including applicable demolition permits for the project.
- H. Safe-sight triangles must not contain obstructions to cross-visibility at a height between 2 and 6 feet above the pavement.
- I. The City of Miami Beach Parking Department must approve the removal or reconfiguration of any existing on-street parking.
- J. The applicant shall ensure that the contractor(s) observe good construction practices and prevent construction materials and debris from impacting the right-of-way.
- K. The contractor(s) shall ensure that the street and the swale directly abutting the construction site remains free of debris and refuse at all times; at a minimum, the contractor(s) shall inspect and clear the street and swale areas before leaving at the end of each day.

- L. This order shall be enforced by the Building, Planning, Parking and Code Compliance Departments.
- M. A recycling/salvage plan shall be provided as part of the submittal for a demolition/building permit, in a manner to be reviewed and approved by staff.
- N. A copy of all pages of the recorded Final Order shall be scanned into the plans submitted for building permit and shall be located immediately after the front cover page of the permit plans.
- O. The Final Order shall be recorded in the Public Records of Miami-Dade County, prior to the issuance of a Building Permit.
- P. Satisfaction of all conditions is required for the Planning Department to give its approval on a Certificate of Occupancy; a Temporary Certificate of Occupancy or Partial Certificate of Occupancy may also be conditionally granted Planning Departmental approval.
- Q. The Final Order is not severable, and if any provision or condition hereof is held void or unconstitutional in a final decision by a court of competent jurisdiction, the order shall be returned to the Board for reconsideration as to whether the order meets the criteria for approval absent the stricken provision or condition, and/or it is appropriate to modify the remaining conditions or impose new conditions.
- R. The conditions of approval herein are binding on the applicant, the property's owners, operators, and all successors in interest and assigns.
- S. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.

IT IS HEREBY ORDERED, based upon the foregoing findings of fact, the evidence, information testimony and materials presented at the public hearing, which are part of the record for this matter, and the staff report and analysis, which are adopted herein, including the staff recommendations, which were amended and adopted by the Board, that the application for Design Review approval is GRANTED for the above-referenced project subject to those certain conditions specified in Paragraph I, II, III of the Finding of Fact, to which the applicant has agreed.

PROVIDED, the applicant shall build substantially in accordance with the plans, entitled "Sandbox", as prepared by **Red Octopus LLC**, dated, signed and sealed September 6, 2024, and as approved by the Design Review Board, as determined by staff.

When requesting a building permit, the plans submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions of approval that must be satisfied prior to permit issuance, as set forth in this Order, have been met.

The issuance of the approval does not relieve the applicant from obtaining all other required Municipal, County and/or State reviews and permits, including final zoning approval. If adequate handicapped access is not provided on the Board approved plans, this approval does not mean that such handicapped access is not required. When requesting Building permit, the plans

submitted to the Building Department for permit shall be consistent with the plans approved by the Board, modified in accordance with the conditions set forth in this Order.

If the Full Building Permit for the project is not issued within eighteen (18) months of the meeting date at which the original approval was granted, the application will expire and become null and void, unless the applicant makes an application to the Board for an extension of time, in accordance with the requirements and procedures of Section 2.2.4.6 of the Land Development Regulations; the granting of any such extension of time shall be at the discretion of the Board. If the Full Building Permit for the project shall expire for any reason (including but not limited to construction not commencing and continuing, with required inspections, in accordance with the applicable Building Code), the application will expire and become null and void.

In accordance with Chapter 2 of the Land Development Regulations, the violation of any conditions and safeguards that are a part of this Order shall be deemed a violation of the land development regulations of the City Code. Failure to comply with this **Order** shall subject the application to Chapter 2 of the Land Development Regulations, for revocation or modification of the application.
