EXHIBIT A

Number of Review Cycles
Goal: Reduce the number of 3rd and 4+ review cycles

1-2 review cycles is common and normal.

- Most reviews are not completed on the first cycle because most submissions are deficient.

2024 – Review Cycles Report – Issued permits:

- % of permits Issued after 1-2 review cycles = **65%***
- % of permits Issued that required more than 2 review cycles = **35%**

*The majority of permits are being Issued after 1-2 review cycles.

Permit Review Cycles from 1/1/2024 – 10/2/2024		
Number of permits reviewed 1 time	3,029	33%
Number of permits reviewed 2 times	2,367	32%
Number of Permits reviewed 3 times	1,661	18%
Number of permits reviewed 4+ time	1,522	17%
Total Permits Reviewed	**9,079**
