Comments:

See correction comments provided. Should you have any questions or would like to discuss the comments, please do not hesitate to contact me at philipbyrnes@miamibeachfl.gov

Comments: Revise the landscape legend form (required column) as follows:

a. 29,095 sf lot requires (29) lot trees minimum.

b. Number of native lot trees = 30% of provided lot trees c. (7) street trees minimum. (refer to additional comment referencing street trees) d. (36) total trees minimum x 12 = (432) shrubs minimum and (216) natives minimum. e. (44) large shrubs minimum and (22) native large shrubs minimum. Correct the provided column to reflect the quantities shown on the plant list.

Response: Comments addressed and approved under RV2422992.

(29) Lot trees are required. The number of required trees listed in table A of the Landscape Ordinance for category 1 residential zoning districts are intended for properties up to 6,000 square feet lot area. Provide one additional tree for each additional 1,000 square feet of lot area. If the total lot area is a fraction over the additional 1,000 square feet then, the number of required trees will be rounded up.

Response: Comments addressed and approved under RV2422992.

(7) Street trees are required and shall be placed within the swale area or shall be placed within seven feet of the property line on

private property where demonstrated to be necessary due to right-of-way obstructions as determined by the environment and sustainability department. Any required street trees that cannot be provided along the roadway due to a required increase in the

ARCHITECTURE INTERIOR DESIGN PLANNING

maximum average spacing due to Right-of-Way obstructions shall be planted elsewhere on the site, or the applicant shall utilize the tree and shrub compliance options, pursuant to section 4.2.4. Note that palms do not count towards the street tree requirement but may be planted in addition.

Response: Comments addressed and approved under RV2422992.
