ANALYSIS

Please place the above item on the February 3, 2025 City Commission meeting agenda as a referral to the Land Use and Sustainability Committee ("LUSC").

Currently, if a land use board meeting is canceled due to a lack of quorum, the City is required to publish a new 30-day notice. This causes significant delay and expense to property owners with pending applications.

I would like the LUSC to consider possible amendments to the Land Development Regulations to amend the notice requirements for land use board meetings that are canceled and rescheduled, to allow the City to reschedule a board meeting to an earlier date, and minimize inconvenience to applicants, neighbors, and other members of the public.

I would also like the LUSC to review and consider amending the attendance requirements for land use board members. Currently, if a land use board member fails to attend three of the board's regularly scheduled meetings in a calendar year, the member is automatically removed from the board. I would initially propose reducing the maximum number of absences to two per year, to promote board member attendance and ensure applicants have an opportunity to present to a full board. As part of this discussion, I would like the LUSC to consider how to expedite the appointment of a replacement member in the event an existing board member resigns or is automatically removed due to absences. For example, the appointment of a replacement board member could be assigned a time-certain on an upcoming City Commission agenda.

These amendments are intended to make our land use board process friendlier and more efficient for our residents, property owners, and interested members of the public.
