As noted above, the property has received several violations, including the installation of a sculpture on the property without obtaining a Certificate of Appropriateness, as well as violations related to the CUP for the application of window tinting and for the obstruction of the public sidewalk due to patrons queuing in front of the establishment.

Further, violation **CC2024-18066** was issued on 6/5/2024 for failing to provide written notification (at least 96 hours prior to the start of a promoted event within the city) to the Miami Beach Police Department Chief or designee for a performance on June 7, 2024. This violation was appealed to the Special Master (SMA2024-04575), and on July 15, 2024, the Special Master denied the appeal with an adjudication of guilty (See SM Order, attached).

The following conditions of approval contained in the CUP are applicable regarding the above noted violations:

1. The Planning Board shall maintain jurisdiction of this Conditional Use Permit. The applicant shall provide a progress report to the Board in 90 days after the Business Tax Receipt has been issued. The Board reserves the right to modify the Conditional Use approval at the time of a progress report in a non-substantive manner, to impose additional conditions to address possible problems and to determine the timing and need for future progress reports. This Conditional Use is also subject to modification or revocation under City Code Sec. 118-194 (c).
13. Any window treatment that may be proposed shall be such that there is a clear view from the sidewalk in order to activate the area. Such treatments shall be included in the building permit plans and shall be reviewed and approved by staff.
15. Queuing of persons on the sidewalk shall be prohibited. Queuing shall take place within the premises, as shown in the plans submitted, and controlled by The Gates security personnel so that there is no spillover that could conflict with pedestrian flow in front of the subject establishment.
22. The establishment and operation of this Conditional Use shall comply with all the aforementioned conditions of approval; non-compliance shall constitute a violation of the Code of the City of Miami Beach, Florida, and shall be subject to enforcement procedures set forth in Section 114-8 of the Code and such enforcement procedures as are otherwise available. Any failure by the applicant to comply with the conditions of this Order shall also constitute a basis for consideration by the Planning Board for a revocation of this Conditional Use permit.

The violations noted herein pertaining to sidewalk queuing will require continuous monitoring by Code Compliance.

At the June 25, 2024 meeting the Board requested that the applicant present operational plans to ensure that no queuing on the public sidewalk would take place. The Board also requested information on the number monthly promoted events. This information was not provided to the Board when the progress report was last reviewed on July 30, 2024.

The applicant has submitted an updated queuing narrative (attached), in an attempt to ensure compliance with the condition prohibiting queuing on the public sidewalk. This queuing narrative includes a two phase approach, which the applicant states has allowed the queuing to be contained completely within the private property.

The applicant has yet to provide the requested information pertaining to the number of monthly promoted events. Additionally, staff recommends that that the queuing narrative submitted include an affirmative statement that no queuing will take place on the sidewalk, at any time, as well as provide a plan illustrating the various checkpoints.

Staff recommends that the Board modify the CUP to update all cited code sections to reflect the current code section in the LDR's, and also to reference the latest queuing plan provided by the applicant. Such modifications are included in the attached draft order.

Staff also recommends that the board discuss the substance of the violations noted herein, and consider whether additional modifications to the CUP may be warranted. In addition to providing an updated queuing plan and promoted events information, the board may want to consider limitations on the number or nature of the club's promoted events. Finally, staff recommends that the renovation/modification hearing be continued to the October 29, 2024, meeting.

#### **STAFF RECOMMENDATION**

Staff recommends that the Planning Board discuss the item and modify the conditions of approval for the CUP as noted above and continue the revocation/modification hearing to October 29, 2024.

**IT IS THEREFORE ORDERED**, based upon the foregoing findings of fact, the evidence, information, testimony and materials presented at the public revocation/modification hearing, which are part of the record for this matter, and the staff report and analysis, which is adopted herein, including the staff recommendations, that the ~~modifications to the~~ Conditional Use Permit be ~~GRANTED modified~~, as provided below: Underlining = new language; Strikethrough = deleted language, from the previously issued CUP.

1. The Planning Board shall maintain jurisdiction of this Conditional Use Permit. The applicant shall provide a progress report to the Board in 90 days after the Business Tax Receipt has been issued. The Board reserves the right to modify the Conditional Use approval at the time of a progress report in a non-substantive manner, to impose additional conditions to address possible problems and to determine the timing and need for future progress reports. A progress report shall be scheduled prior to the applicant's submission and staff's acceptance of the affidavit.~~
3. The conditions of approval for this Conditional Use Permit are binding on the applicant, the property owners, operators, and all successors in interest and assigns.
4. Security personnel shall take measures to enforce the Patron Age Restriction of the City Code during all hours of operation.

  7. A revised floor plan that shows the seating arrangement shall be submitted to staff for review and approval prior to obtaining a building permit or Certificate of Completion, Certificate of Occupancy or Business Tax Receipt. In addition, as proffered by the applicant, security personnel shall be posted in close proximity to all doors, including the rear exit door.

  9. Prior to the issuance of a building permit, the applicant shall participate in a Transportation Concurrency Management Area Plan (TCMA Plan), if deemed necessary, by paying its fair share cost, as determined by the Transportation/Concurrency Management Division. A final concurrency determination shall be conducted prior to the issuance of a Certificate of Occupancy or Certificate of Completion.   16. The applicant shall be responsible for maintaining the frontage and exterior of the building and the property in excellent condition, including keeping the sidewalk, curb and gutter in front and side of the building in a clean and sanitary condition, free of all refuse, at all times. When sweeping the sidewalk in front of the establishment, the personnel doing the

17. The Planning Board shall retain the right to call the operators back before them and modify the hours of operation or the occupant load should there be issuance of written warnings and/or notices of violation about loud, excessive, unnecessary, or unusual late night noise.
18. A violation of Chapter 46, Article IV, "Noise," of the Code of the City of Miami Beach, Florida (a/k/a "noise ordinance"), as amended, shall be deemed a violation of this Conditional Use Permit and subject to the remedies as described in section 118-194, Code of the City of Miami Beach, Florida.

22. The establishment and operation of this Conditional Use shall comply with all the aforementioned conditions of approval; non-compliance shall constitute a violation of the Code of the City of Miami Beach, Florida, and shall be subject to enforcement procedures set forth in ~~Section 44-7~~ 1.3.7 of the Code Land Development Regulations (LDR's), entitled "ENFORCEMENT", and such enforcement procedures as are otherwise available. Any failure by the owner, applicant or operators to comply with the conditions of this Order shall also constitute a basis for consideration by the Planning Board for a revocation of this Conditional Use permit.
23. Nothing in this order authorizes a violation of the City Code or other applicable law, nor allows a relaxation of any requirement or standard set forth in the City Code.
24. The applicant agrees and shall be required to provide access to areas subject to this CUP (not including private residences) for inspection by the City (i.e.: Planning, Code Compliance, Building Department, Fire Safety), to ensure compliance with the terms and conditions of this CUP.

## **VENDOME – 743 WASHINGTON AVENUE**

### **UPDATED QUEUING PLAN**

I am providing an updated and detailed explanation of our queue line management system at Vendome Miami Nightclub, located at 743 Washington Ave, Miami Beach, FL 33139. This revision is in response to the concerns raised by Code Compliance regarding the use of the sidewalk for our queue line. We have since restructured our queue process to ensure it is fully compliant with city regulations.

#### **Background:**

In the past, our queue line would extend onto the public sidewalk, resulting in concerns about blocking pedestrian traffic. Additionally, our previous process involved a single checkpoint where both ID verification and pat-down/bag checks occurred, which caused congestion and inefficiency.

The queue typically forms at the very beginning of our operations, specifically between 12:00 AM and 1:00 AM, as this is when we open our doors to patrons. We have taken steps to manage this initial surge of guests in an organized and efficient manner.

#### **Revised Queue Line Management:**

##### **1. Two-Phase Queue System:**

- **Phase One: ID Checkpoint**

The first checkpoint is positioned at the start of the queue, entirely within our property on the left side when facing the building. Here, two security personnel are stationed to verify patrons' IDs and ensure they meet age requirements before entering the club. This helps filter the queue early and keeps the flow moving smoothly.

- **Phase Two: Pat-Down and Bag Check**

After passing the ID checkpoint, the line proceeds around the column on our property, leading to the second checkpoint. At this point, patrons undergo a thorough pat-down and bag check. This separation of duties allows each security task to be performed efficiently without creating bottlenecks, as was the case in our previous single-checkpoint system.

## **2. Improved Use of Space:**

- By dividing the queue process into two phases, we are now using our property more effectively, preventing overcrowding in any single area. Previously, both ID checks and pat-downs occurred at the same location, slowing down the process and congesting the entryway.
- The line now remains entirely on our property and does not spill onto the public sidewalk, ensuring full compliance with city regulations.

## **3. Security and Crowd Control:**

- Our security team remains fully engaged throughout the queue process to direct patrons and ensure an orderly flow. They ensure that people follow the designated path and maintain the integrity of the queue.
- Furthermore, security personnel stationed at the exit ensure that patrons leaving the club do not linger in front of the venue, preventing any obstruction to pedestrian traffic.

## **Conclusion:**

This reorganization of the queue system addresses all previously raised concerns. The two-phase process not only speeds up entry for patrons but also ensures that the public sidewalk remains unobstructed at all times. We have made significant adjustments to utilize our available space more effectively and maintain compliance with local ordinances.
