## PLANNING DEPARTMENT

### Staff Report & Recommendation

### PLANNING BOARD

TO: Chairperson and Members  
Planning Board

DATE: September 24, 2024

FROM: Thomas R. Mooney, AICP  for TRM  
Planning Director

SUBJECT: **PB24-0709. 701 West Ave – Canopy Park Comprehensive Plan FLUM Amendment**

**PB24-0710. 701 West Ave – Canopy Park Zoning District Change**

#### **RECOMMENDATION**

Review the proposed ordinances amending the Future Land Use Map (FLUM) of the Comprehensive Plan and changing the zoning district classification for Canopy Park and transmit both ordinances to the City Commission with favorable recommendations.

#### **HISTORY**

On May 15, 2024, at the request of Commissioner Tanya K. Bhatt, the Mayor and City Commission referred a proposal pertaining to the zoning and future land use designation of Canopy Park (C4 AC) to the Land Use and Sustainability Committee (LUSC) and the Planning Board. On June 10, 2024, the LUSC discussed the item and recommended that the Planning Board approve the proposed ordinances, including a new future land use designation of Recreation Open Space (ROS).

#### **BACKGROUND**

As part of the Development Agreement for the 500 Alton Road project, the developer designed, constructed, and conveyed a 3.0-acre public park to the City of Miami Beach. The park, located at 701 Alton Road, is a municipal park, operated by the City for the benefit of the general public. On August 23, 2022, 82% of the City's voters voted to name the park as "Canopy Park."

As proposed, the subject ordinances include the rezoning of Canopy Park, as well as the reclassifying the future land use designation on the City's future land use map, to better reflect the City's ownership and use of the property as a park.

The property is currently classified on the zoning map and future land use map as CD-2 (commercial, medium intensity), which is the zoning and future land use classification at the time of the original development agreement. The subject ordinances will change the zoning district to GU, Government Use, and change the future land use classification to ROS, Recreation and Open Space.

There is a separate related text amendment to Section 2.2.3.4 of the Land Development Regulations for Unified Development Sites (PB24-0711), which allows floor area to be distributed in accordance with the provisions of a development agreement with the City.

**ZONING / SITE DATA**

Legal Description:	See Exhibit A
Site Area:	130,683 SF /3.0000 acres
Existing Zoning Designation:	CD-2, Commercial, Medium Intensity
Proposed Zoning Designation:	GU, Government Use
Existing FLUM Category:	CD-2, Medium Intensity Commercial

West:	Multifamily

**REVIEW CRITERIA**

Pursuant to Section 2.4.2 of the Resiliency Code, in reviewing a request for an amendment to these land development regulations (LDRs), the board shall consider the following when applicable:

1.

**Whether the proposed change is consistent and compatible with the comprehensive plan and any applicable neighborhood or redevelopment plans.**

**Consistent** – The proposed LDR amendment is consistent with the goals, objectives, and policies of the Comprehensive Plan, as proposed to be amended.
2.

**Whether the proposed change would create an isolated district unrelated to adjacent or nearby districts.**

**Consistent** – The proposed amendment does not create isolated districts.
3.

**Whether the change suggested is out of scale with the needs of the neighborhood or the city.**

**Consistent** - The proposed ordinance amendment does not create an isolated district.
4.

**Whether the proposed change would tax the existing load on public facilities and infrastructure.**

**Consistent** – The proposed amendment doe not increase loads on public facilities or infrastructures.
5.

**Whether existing district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.**

**Partially Satisfied** – While the boundaries of the subject zoning district change are irregular, they follow the area previously designated for the public park.

6. **Whether changed or changing conditions make the passage of the proposed change necessary.**

**Consistent** – As the public park area is now city owned, the passage of the proposed change is necessary.

7. **Whether the proposed change will adversely influence living conditions in the neighborhood.**

**Consistent** – The proposed ordinance amendment will no affect living conditions in the neighborhood.

8. **Whether the proposed change will create or excessively increase traffic congestion beyond the levels of service as set forth in the comprehensive plan or otherwise affect public safety.**

**Consistent** – The proposed change will not affect traffic congestion.

9. **Whether the proposed change will seriously reduce light and air to adjacent areas.**

**Consistent** – The proposed change will not reduce light and air to adjacent areas.

10. **Whether the proposed change will adversely affect property values in the adjacent area.**

**Consistent** – The proposed change will not adversely affect property values in the adjacent areas.

11. **Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accordance with existing regulations.**

**Consistent** – The proposed change will not be a deterrent to the improvement or development of properties in the City.

12. **Whether there are substantial reasons why the property cannot be used in accordance with existing zoning.**

**Consistent** – As the public park area is now city owned, the passage of the proposed change is necessary.

13. **Whether it is impossible to find other adequate sites in the city for the proposed use in a district already permitting such use.**

**Not applicable.**

#### **COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA**

Section 7.1.2.4 of the LDRs establishes the following review criteria when considering ordinances,

adopting resolutions, or making recommendations:

**(1) Whether the proposal affects an area that is vulnerable to the impacts of sea level rise, pursuant to adopted projections.**

**Consistent** – The proposal does affect areas that are vulnerable to the impacts of sea level rise in the long term.

**(2) Whether the proposal will increase the resiliency of the City with respect to sea level rise.**

**Consistent** – The proposal does not affect the resiliency of the City.

**(3) Whether the proposal is compatible with the City’s sea level rise mitigation and resiliency efforts.**

**Consistent** – The proposal is compatible with the City’s sea level rise mitigation and resiliency efforts.

### **ANALYSIS**

When the Canopy Park parcel became City owned, the zoning for the property changed to Government Use (GU). In this regard, section 7.2.1.1.b of the LDR’s specifies that all city-owned properties are zoned GU, although they may not be designated as such on the zoning map:

*Section 7.2.1.1.b*

2. *GU properties. Except as otherwise provided in section [7.2.16](#), all city-owned properties are zoned GU although they may not be designated on the map.*

The future land use designation of the Canopy Park site is still commercial, medium intensity and did not automatically convert to another future land use classification. In this regard, the re-classification of the future land use designation of the park to “Recreation and Open Space Including Waterways (ROS)” would be appropriate.

The existing **Medium Intensity Commercial Category (CD-2)** future land use designation provides for the following:

#### **POLICY RLU 1.1.9 MEDIUM INTENSITY COMMERCIAL (CD-2)**

**Purpose:** To provide development opportunities for and to enhance the desirability and quality of existing and/or new medium intensity commercial areas which serve the entire City.

**Uses which may be Permitted:** Various types of commercial uses including business and professional offices, retail sales and service establishments, eating and drinking establishments; apartment residential uses; apartment hotels; and hotels.

Other uses which may be permitted are accessory uses specifically authorized in this land use category, as described in the Land Development Regulations, which are required to

be subordinate to the main use; and conditional uses specifically authorized in this land use category, as described in the Land Development Regulations, which are required to go through a public hearing process as prescribed in the Land Development Regulations of the Code of the City of Miami Beach.

Density Limits: 100 dwelling units per acre.

Intensity Limits: a floor area ratio of 1.5 for commercial; 2.0 for residential or mixed use; 3.25 in the Wolfsonian Arts District.

The proposed ***Recreation and Open Space Including Waterways (ROS)*** future land use designation provides for the following:

#### **POLICY RLU 1.1.19 RECREATION AND OPEN SPACE INCLUDING WATERWAYS (ROS)**

Purpose: To provide development opportunities for existing and new recreation and open space facilities, including waterways.

Uses which may be permitted: Recreation and open space facilities, including waterways.

Intensity Limits: Intensity may be limited by such set back, height, floor area ratio and/or other restrictions as the City Commission acting in a legislative capacity determines can effectuate the purpose of this land use category and otherwise implement complementary public policy. However, in no case shall the intensity exceed a floor area ratio on 0.5.

Undesignated Fisher Island Lots: Fisher Island lots that are not otherwise designated are hereby designated Recreation and Open Space.

#### **COMPREHENSIVE PLAN AMENDMENT AND REVIEW PROCESS**

The total land area involved in this application is 3.0000 acres (130,683 SF). Under Section 163.3187 F.S., land use map amendments of less than 10 acres in size may be considered “small-scale” amendments, which require only one public hearing before the City Commission, which shall be an adoption hearing. Upon adoption, the local government shall send a copy of the adopted small-scale amendment to the State Land Planning Agency so that the Agency can maintain a complete and up-to-date copy of the City’s Comprehensive Plan.

#### **SUMMARY**

The proposed amendment to the Zoning Map is required to be processed concurrently with the companion FLUM amendment, as they are interrelated; however, separate motions must be made for each application. Staff is supportive of the proposal and recommends that the Planning Board transmit both ordinances to the City Commission with a favorable recommendation.

#### **RECOMMENDATION**

In view of the foregoing analysis, staff recommends that the Planning Board transmit the proposed Ordinances to the City Commission with favorable recommendations.
