Planning Board

SUBJECT: **PB24-0711. Unified Development Site – LDR Text Amendment**

RECOMMENDATION

Transmit the proposed ordinance amendment to the City Commission with a favorable recommendation.

HISTORY

On May 15, 2024, at the request of Commissioner Tanya K. Bhatt, the Mayor and City Commission referred a proposal pertaining to the zoning and future land use designation of Canopy Park (C4 AC) to the Land Use and Sustainability Committee (LUSC) and the Planning Board. On June 10, 2024, the LUSC discussed the item and recommended that the Planning Board approve the proposed ordinances, including a new future land use designation of Recreation Open Space (ROS).

A text amendment to Chapter 2 of the Land Development Regulations of the City Code (LDRs) was also proposed and included as part of the proposed re-zoning of the park property, to address the previous movement of applicable floor area within the Alton Gateway overlay.

BACKGROUND

As part of the Development Agreement for the 500 Alton Road project, the developer designed, constructed, and conveyed a 3.0-acre public park to the City of Miami Beach. The park, located at 701 Alton Road, is a municipal park, operated by the City for the benefit of the general public. On August 23, 2022, 82% of the City's voters voted to name the park as "Canopy Park."

The property is currently classified on the zoning map and future land use map as CD-2 (commercial, medium intensity), which is the zoning and future land use classification at the time of the original development agreement. Separate, companion ordinances will change the zoning district to GU, Government Use, and change the future land use classification to ROS, Recreation and Open Space (PB24-0709 & PB24-0710).

This subject ordinance, which is an amendment to Section 2.2.3.4 of the Land Development Regulations for Unified Development Sites (PB24-0711), allows floor area to be distributed in accordance with the provisions of a development agreement with the City.

REVIEW CRITERIA

Pursuant to Section 2.4.2 of the Resiliency Code, in reviewing a request for an amendment to these land development regulations (LDRs), the board shall consider the following when applicable:

1. **Whether the proposed change is consistent and compatible with the comprehensive plan and any applicable neighborhood or redevelopment plans.**

Consistent – The proposed amendment is consistent with the goals, objectives, and policies of the Comprehensive Plan.

2. **Whether the proposed change would create an isolated district unrelated to adjacent or nearby districts.**

Not applicable – The proposed amendment does not modify district boundaries.

3. **Whether the change suggested is out of scale with the needs of the neighborhood or the city.**

Not applicable – The proposed Ordinance does not affect the overall scale of development.

4. **Whether the proposed change would tax the existing load on public facilities and infrastructure.**

Consistent – The proposed amendment does not increase loads on public facilities or infrastructures.

5. **Whether existing district boundaries are illogically drawn in relation to existing conditions on the property proposed for change.**

Not applicable – The proposed change does not modify existing district boundaries.

6. **Whether changed or changing conditions make the passage of the proposed change necessary.**

Consistent – The proposed change is necessary in order to include requirements for the transfer of floor area for properties that are subject to the terms of a development agreement with the city and which contain properties with different zoning classifications.

7. **Whether the proposed change will adversely influence living conditions in the neighborhood.**

Consistent – The proposed ordinance amendment will not affect living conditions in the neighborhood.

8. **Whether the proposed change will create or excessively increase traffic congestion beyond the levels of service as set forth in the comprehensive plan or otherwise affect public safety.**

Consistent – The proposed change will not affect traffic congestion.

9. Whether the proposed change will seriously reduce light and air to adjacent areas.

Consistent – The proposed change will not reduce light and air to adjacent areas.

10. Whether the proposed change will adversely affect property values in the adjacent area.

Consistent – The proposed change will not adversely affect property values in the adjacent areas.

11. Whether the proposed change will be a deterrent to the improvement or development of adjacent property in accordance with existing regulations.

Consistent – The proposed change will not be a deterrent to the improvement or development of properties in the City.

12. Whether there are substantial reasons why the property cannot be used in accordance with existing zoning.

Consistent – As the public park area is now city owned, the passage of the proposed change is necessary.

13. Whether it is impossible to find other adequate sites in the city for the proposed use in a district already permitting such use.

Not applicable.

COMPLIANCE WITH SEA LEVEL RISE AND RESILIENCY REVIEW CRITERIA

Section 7.1.2.4 of the LDRs establishes the following review criteria when considering ordinances, adopting resolutions, or making recommendations:

(1) Whether the proposal affects an area that is vulnerable to the impacts of sea level rise, pursuant to adopted projections.

Consistent – The proposal does affect areas that are vulnerable to the impacts of sea level rise in the long term.

(2) Whether the proposal will increase the resiliency of the City with respect to sea level rise.

Consistent – The proposal does not affect the resiliency of the City.

(3) Whether the proposal is compatible with the City's sea level rise mitigation and resiliency efforts.

Consistent – The proposal is compatible with the City's sea level rise mitigation and resiliency efforts.

ANALYSIS

When the development agreement creating Canopy Park was approved, the entire overlay was located within the C-PS2, CD-2 and RM-2 zoning districts. Since the maximum FAR (2.0) was the same for residential use in all three districts, all of the available floor area from the portion of the site that is now a public park was moved to other parts of the site to accommodate the new residential tower and the proposed detached retail structure.

The following amendment is proposed to address the distribution of floor area for properties that are subject to the terms a development agreement with the City:

2.2.3.4 Unified Development Site

- a. *Where development is proposed on a site that consists of a unified development site, the application shall be accompanied by either a unity of title or covenant in lieu of unity of title, as applicable. A "unified development site" is a site where a development is proposed and consists of multiple lots, all lots touching and not separated by a lot under different ownership, or a public right-of-way. A unified development site does not include any lots separated by a public right-of-way or any non-adjacent, non-contiguous parcels. Additionally, the following shall apply to any unified development site:*
 1. *All lots need not be in the same zoning district; however: the allowable floor area ratio (FAR) shall be limited to the maximum FAR for each zoning district, inclusive of bonus FAR.*
 2. *Lots not located in the same zoning districts may be joined together to create a unified development site, and be permitted to aggregate the allowable floor area ratio, provided the entire unified development site, including each separate zoning district, has the same maximum FAR, inclusive of bonus FAR. The instrument creating the unified development site shall clearly delineate both the maximum FAR, inclusive of bonus FAR, and total square footage permitted.*
 3. *For unified development sites that are subject to the terms of a development agreement with the City of Miami Beach, and contain properties with different zoning classifications, as well as properties located in the Alton Road Gateway Area, as more specifically prescribed in Section 7.2.11.7, the maximum allowable floor area may be distributed within the entirety of the unified development site in accordance with the provisions of the applicable development agreement.*
 4. *In the event a future change in zoning district classification modifies the maximum floor area ratio (FAR), inclusive of bonus FAR, for a district within a unified development site, the maximum floor area square footage recorded for the unified development site shall not be exceeded.*

RECOMMENDATION

In view of the foregoing analysis, staff recommends that the Planning Board transmit the proposed Ordinance to the City Commission with a favorable recommendation.
