RECOMMENDATION

Approve the resolution and partnerships to provide First Generation Scholarships to eligible Miami Beach residents.

BACKGROUND/HISTORY

In January 2008, the City of Miami Beach, Florida ("City") entered into an Education Compact with Miami-Dade County Public Schools (M-DCPS) to enhance learning opportunities for youth. The Education Compact reflects the desire of the Miami Beach community to support excellence in the City's public schools.

The Florida International University (FIU) First Generation Scholarship Program is supported by an innovative matching grant program established in 2006 by the Florida Legislature. The program provides financial support to qualified undergraduate FIU students who are the first generation in their families to attain a college degree. This program is the only one of its kind in the state of Florida to match private donations for first generation scholarships, providing financial assistance for students to attend a state university or Florida college.

To date, FIU has awarded over 15,300 scholarships for critical financial support for FIU students. The need, however, is far greater than the available resources – currently, less than one in seven eligible students receives a First Generation Scholarship. As a result, many talented and highly motivated students with limited resources are forced to attend only part-time or postpone their education altogether. The First Generation Scholarship Program is, therefore, a vital source of financial support for many of FIU's underserved, low-income students that bridges the gap between their financial aid funding and their unmet need to fund their cost of attendance to FIU.

ANALYSIS

Increased scholarship and program financial aid are critical to ensure that all deserving students receive the assistance needed to enroll, succeed, and graduate. Investing in FIU's First Generation Scholarship Program benefits not simply the students, but the greater Miami Beach community. FIU serves more than 58,000 students, 70% of whom are undergraduates. Approximately 90% of FIU undergraduate students are minorities, and nearly 25% self-identify as first generation college students.

First generation students are more likely than their peers to come from lower-earning households. Despite the significant need, a high percentage of FIU students receive only partial financial aid, and many students eligible for First Generation Scholarships remain unfunded. In 2020-21, donor investment and state-matched funds supported 889 students, while 6,555 (88.1%) students did not receive funding. Receiving an award is elusive for many FIU students, as the demand for funds exceeds FIU's aid budget.

The City of Miami Beach will partner with the Miami Beach Police Athletic League, Inc. ("MBPAL") and the Miami Beach Chamber Education Foundation, Inc. ("MBCEF"). The City of Miami Beach will contribute \$28,000 for First Generation Scholarships and partner with the Miami Beach Police Athletic League, Inc. ("MBPAL") which will contribute \$3,500 and the Miami Beach Chamber Education Foundation, Inc. ("MBCEF") which will contribute \$3,500 for total investment in the FIU First Generation Scholarship of \$35,000 and the Florida state matching funds will provide an additional \$70,000 which is a 2:1 match yielding a total amount of \$105,000 for FIU first-generation scholarships.

Approximately 30 students who are residents of the City of Miami Beach would receive a \$3,500 scholarship in the 2022-23 school year. Funding will be prioritized to meet the needs of students who are degree-seeking undergrad students with a permanent address in the city of Miami Beach and with zip codes of 33139, 33140, and 33141 (only residents in the city of Miami Beach) with a preference for First Time in College (FTIC) students. Should there be no eligible FTIC students, other students will be eligible. Funding will be awarded based on financial need as indicated by the FAFSA "unmet need" of the student. If there are not enough students eligible to award the funds that meet this criteria, funds will be rolled over to the following year or scholarship per students can be increased; and

Scholarships may be renewable upon meeting criteria including recipients demonstrate financial need by completing the national Free Application for Federal Student Aid (FAFSA) and be eligible for a Pell Grant, recipients must be the first generation in their family to attain a college bachelor's degree (students whose siblings have attained or are pursuing a degree are also eligible, recipients must be residents of the State of Florida, be enrolled in or accepted for admission to the University, and be a degree- seeking undergraduate students enrolled for a minimum of six credit hours per semester.
