ANALYSIS

The City's zoning map includes two Mixed-Use Entertainment (MXE) zoning districts – one in South Beach, along Collins Avenue and Ocean Drive; and the other in North Beach, along Ocean Terrace. The MXE designation was created, in part, to incentivize redevelopment, especially for

hotel and entertainment uses.

The properties to the west of the North Beach MXE district are currently zoned CD-2 (commercial, medium intensity district) and to ensure the consistency and compatibility of future development, the attached ordinances propose to re-zone this district from MXE to CD-2 and amend the future land use map designation from MXE to CD-2. This change will not result in more intense development than is currently permitted in the subject area. The redevelopment projects underway along Ocean Terrace would not be impacted by a re-zoning from MXE to CD-2

The existing **Mixed Use Entertainment (MXE)** future land use designation provides for the following:

POLICY RLU 1.1.13 MIXED USE ENTERTAINMENT (MXE)

Purpose: To provide development opportunities for and to enhance the desirability and quality of existing and/or new mixed use areas which accommodate residential, hotel and commercial development.

Uses which may be permitted: Apartments, apartment hotels, hotels and various types of commercial uses including, business and professional offices (but not medical or dental offices), retail sales and service establishments, and eating and drinking establishments..

Other uses which may be permitted are accessory uses specifically authorized in this land use category, as described in the Land Development Regulations, which are required to be subordinate to the main use; and conditional uses specifically authorized in this land use category, as described in the Land Development Regulations, which are required to go through a public hearing process as prescribed in the Land Development Regulations of the Code of the City of Miami Beach.

Density Limits: 100 dwelling units per acre.

Intensity Limits: a floor area ratio of 2.0

The proposed **Medium Intensity Commercial Category (CD-2)** future land use designation provides for the following:

POLICY RLU 1.1.9 MEDIUM INTENSITY COMMERCIAL (CD-2)

Purpose: To provide development opportunities for and to enhance the desirability and quality of existing and/or new medium intensity commercial areas which serve the entire City.

Uses which may be Permitted: Various types of commercial uses including business and professional offices, retail sales and service establishments, eating and drinking establishments; apartment residential uses; apartment hotels; and hotels.

Other uses which may be permitted are accessory uses specifically authorized in this land use category, as described in the Land Development Regulations, which are required to be subordinate to the main use; and conditional uses specifically authorized in this land

use category, as described in the Land Development Regulations, which are required to go through a public hearing process as prescribed in the Land Development Regulations of the Code of the City of Miami Beach.

Density Limits: 100 dwelling units per acre.

Intensity Limits: a floor area ratio of 1.5 for commercial; 2.0 for residential or mixed use; 3.25 in the Wolfsonian Arts District.

COMPREHENSIVE PLAN AMENDMENT AND REVIEW PROCESS

The total land area involved in this application is approximately 2.41 acres (105,000 SF), not including portions within a right-of-way. Under Section 163.3187 F.S., land use map amendments of less than 10 acres in size may be considered “small-scale” amendments, which require only one public hearing before the City Commission, which shall be an adoption hearing. Upon adoption, the local government shall send a copy of the adopted small-scale amendment to the State Land Planning Agency so that the Agency can maintain a complete and up-to-date copy of the City’s Comprehensive Plan.

SUMMARY

The proposed amendment to the Zoning Map is required to be processed concurrently with the companion FLUM amendment, as they are interrelated; however, separate motions must be made for each application. Staff is supportive of the proposal and recommends that the Planning Board transmit both ordinances to the City Commission with a favorable recommendation.

RECOMMENDATION

In view of the foregoing analysis, staff recommends that the Planning Board transmit the proposed Ordinances to the City Commission with favorable recommendations.
