COMMISSION MEMORANDUM

TO: Honorable Mayor and Member of the City Council

FROM: Interim City Manager Rickelle Williams

DATE: July 24, 2024 10:30 a.m. Second Reading Public Hearing

TITLE: ELIMINATE THE 0.5 FAR BONUS FOR HOTELS IN THE CD-2 DISTRICT
AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AMENDING THE RESILIENCY CODE OF THE CITY OF MIAMI BEACH, BY AMENDING CHAPTER 7, ENTITLED "ZONING DISTRICTS AND REGULATIONS," ARTICLE 11, "DISTRICT REGULATIONS," SECTION 7.2.11, "CD-2 COMMERCIAL, MEDIUM INTENSITY DISTRICT," BY AMENDING SECTION 7.2.11.3, ENTITLED "DEVELOPMENT REGULATIONS (CD-2)," TO ELIMINATE THE FLOOR AREA RATIO BONUS FOR HOTEL USES IN THE CD-2 DISTRICT ALONG ALTON ROAD, NORMANDY DRIVE, 71 STREET AND COLLINS AVENUE NORTH OF 63 STREET; AND PROVIDING FOR CODIFICATION, REPEALER, SEVERABILITY, AND AN EFFECTIVE DATE.

RECOMMENDATION

The Administration recommends the Mayor and City Commission adopt the ordinance.

BACKGROUND/HISTORY

On December 13, 2023, at the request of Commissioner Alex Fernandez, the City Commission referred a discussion (item C4 N) pertaining to the 0.5 floor area ratio (FAR) bonus available to hotel uses in the CD-2 zoning district to the Land Use and Sustainability Committee (LUSC). Commissioners Tanya K. Bhatt, Joseph Magazine and David Suarez are the co-sponsors of the item.

On March 5, 2024, the LUSC discussed the item and recommended that the City Commission refer an ordinance amendment to the Planning Board to repeal the 0.5 FAR bonus for hotels in the CD-2 district along Alton Road, as well as in the North Beach CD-2 districts in Normandy Isle and along Collins Avenue. The LUSC continued the discussion pertaining to the 0.5 FAR bonus for hotels located in the CD-2 district along Collins Avenue south of 20th Street and Washington Avenue to the June 10, 2024 meeting.

On April 3, 2024, at the request of Commissioner Alex Fernandez, the City Commission referred an amendment to the Land Development Regulations of the City Code (LDRs) to the Planning Board to eliminate the 0.5 FAR bonus for hotels in in certain CD-2 districts (item C4 B).

ANALYSIS

Pursuant to Section 7.2.11.3 of the LDRs, the maximum FAR in the CD-2, commercial medium intensity, zoning district, is 1.5. However, "when more than 25 percent (25%) of the total area of a building is used for residential or hotel units," the maximum FAR is 2.0. The attached draft ordinance removes the 0.5 FAR bonus for a site containing a hotel unit, suite hotel unit or hostel in CD-2 districts along Alton Road, Normandy Drive / 71st Street and Collins Avenue in North Beach.

The proposed ordinance excludes the CD-2 districts on Collins Avenue south of 20th Street, as well as on Washington Avenue. The LUSC continued the discussion regarding these areas and will be providing a separate recommendation to the City Commission.

The zoning maps below show the CD-2 districts in North Beach and South Beach.

NORTH BEACH

SOUTH BEACH

The purpose of the proposed ordinance is to incentivize more residential units within the CD-2 districts.

PLANNING BOARD REVIEW

On May 28, 2024, the Planning Board held a public hearing and transmitted the proposed ordinance to the City Commission with a favorable recommendation (6-0). By separate motion (6-0) the Planning Board also recommended that the City Commission further study setting a maximum unit size for future residential development.

UPDATE

The subject ordinance was approved at First Reading on June 26, 2024, with no changes.

Maduro played a hands-on role in Venezuela's drug cartel, unsealed indictment says

BY ANTONIO MARIA DELGADO
ad@delgado@miamiherald.com

He might not have been among the first officials asked to participate when late President Hugo Chavez decided to get into the drug business, but current ruler Nicolas Maduro ended up playing a leading role and exerting great influence in the Cartel de Los Soles as his power inside Venezuela grew, according to a newly unsealed federal indictment.

A previously sealed indictment introduced in a federal court in New York against leaders of the Venezuelan drug cartel alleges Maduro's involvement in the drug trade was more extensive than previously thought, and he eventually became one of the top bosses of the organization.

Maduro "helped manage and, ultimately, lead the Cartel de Los Soles as he gained power in Venezuela," the indictment reads.

While officially charged in the U.S. in 2020 as being one of the Venezuelan officials responsible for turning the country into a drug-trafficking state, the prevalent view has been that Maduro played a minor role in the cartel, with the leadership of the organization frequently being attributed to former National Assembly Presi-

dent Diosdado Cabello and his now disgraced rival, former Vice President Tarek El Aissami.

Maduro's name does not often appear in court documents describing the initial meetings held by Chavez with his top lieutenants as he moved to set up a partnership with the guerrilla group Revolutionary Armed Forces of Colombia, FARC, to ship cocaine to the United States.

But Maduro's influence in the cartel grew following Chavez's death as he assumed the Venezuelan presidency and as the interests of the drug-trafficking operations began to intertwine with the matters of state, court documents show.

The FARC, which eventually entered into a peace process with the Colombian government, was for many years considered one of the largest producers of cocaine in the world. The U.S. State Department placed the annual volume of the drug transiting through Venezuela at more than 250 tons. Experts believe the current volume going out of Venezuela doubles that amount.

The Venezuelan regime has two key reasons for entering the drug trade, the indictment says.

The Cartel de Los Soles sought not only to enrich its members and enhance

their power, but also to "flood" the United States with cocaine and inflict the drug's harmful and addictive effects on users in this country," the document says.

The previously sealed indictment says Maduro participated in negotiations to secure multi-ton shipments of cocaine from the FARC in exchange for the delivery of money and weapons to the guerrilla group.

U.S. officials also accuse him of coordinating with the authorities of Honduras and other Central American countries for the uninterrupted passage of drug shipments heading toward the United States.

Those efforts helped set up an "air bridge" of drugs in the region. The State Department reported that 75 flights of small planes suspected of carrying drug loads were detected in Honduran airspace in 2010 alone. But flights are just one of several methods used by the cartel; a large portion is shipped by speedboats on established routes through the Caribbean.

"The maritime shipments were shipped north from Venezuela's coastline using go-fast vessels, fishing boats, and container ships. Air shipments were often dispatched from clandestine airstrips, typ-

Estimates by the U.S. Department of Justice say the annual volume of drugs passing through Venezuela by 2020 was around 220 tons.

ically made of dirt or grass, concentrated in the Apure state" in southwestern Venezuela, the document says.

The indictment claims Maduro was asked by Chavez in 2005 to help the cartel identify judges unwilling to provide protection to the FARC and their drug-trafficking activities so they could be fired.

The indictment also says around that time, Maduro obtained \$5 million from the drug trade and got involved in a money-laundering operation involving the palm-oil business.

NICOLAS MADURO 'HELPED MANAGE AND, ULTIMATELY, LEAD THE CARTEL DE LOS SOLES,' THE INDICTMENT READS.

Eventually, the cartel used the state-run Petróleos de Venezuela to launder funds from its drug-trafficking operation.

As the partnership with the FARC grew, Maduro found himself getting more involved in the operation, participating in meetings with the rebel group to get more drugs in exchange for weapons and more money. One of his roles as foreign minister under Chavez was to ensure that the border with Colombia remained open to allow shipments coming from the neighboring country to enter without disruptions.

The operation continued to grow after Maduro became president in 2013 following Chavez's death, with his family members seeking to benefit directly from the drug trade.

Maduro's nephews, raised by First Lady Cilia Flores, were arrested in 2013 in a DEA sting for attempting to export 800 kilos of cocaine to the United States. They were extradited and found guilty the following year and were sentenced to 18 years.

The nephews, who were released in 2022 as part of a prisoner swap with Venezuela, had told DEA informants during a sting operation that they had sought to obtain \$20 million to help finance Flores' election campaign to the Venezuelan National Assembly.

Their aim was political in nature, they claimed in the recorded conversations.

While describing Maduro as his father, one of the nephews said "what we want is for him to take control again of the National Assembly," which was at the time controlled by the opposition.

After the arrests, two of the DEA informants involved in the sting were murdered.
