Re: *City of Miami Beach Employees' Retirement Plan
Actuarial Analysis*

Dear Sonia:

As requested, we have performed a special actuarial analysis to determine the estimated impact on the minimum funding requirements and GASB 67 Net Pension Liability (NPL) associated with including the Inspector General as part of the benefit structure for the other Charter Officers (City Manager, City Attorney, and City Clerk). Specifically, benefit changes include increasing the benefit accrual rate to 4% for benefits earned as an Inspector General and allowing total W-2 compensation included in earnings when determining the benefits.

The estimated impact on the City's GASB 67 Net Pension Liability and the City's minimum contribution requirements, determined as of October 1, 2023 (applicable to the fiscal year ending September 30, 2025), are illustrated below.

	Current	Proposed
(1) Actuarial Accrued Liability	\$ 1,030,244,448	\$ 1,030,374,554
(2) Actuarial Value of Assets	790,477,876	790,477,876
(3) UAAL, (1) – (2)	239,766,572	239,896,678
Estimated Increase in GASB 67 NPL		130,106
 (4) Impact on City's Contribution		
Normal Cost	17,042,588	17,064,732
Administrative Expenses	823,429	823,429
Payment Required to Amortize UAAL	23,388,518	23,398,711
Interest from 10/1/2023 to 10/1/2024	2,970,327	2,972,655
Minimum Required Contribution	44,224,862	44,259,527
Expected Member Contributions	10,382,624	10,387,999
Balance from City	33,842,238	33,871,528
Increase in City's Contribution		\$ 29,290

The UAAL is based on the actuarial value of assets and will differ from similar measures based on the market value of assets. These measures, as provided, are appropriate for determining the adequacy of future contributions, but may not be appropriate for the purpose of settling a portion or all of its liabilities.

Unless otherwise noted, all data, assumptions, methods and plan provisions are the same as in the October 1, 2023 actuarial valuation report. It should also be noted that this change to retirement benefits could potentially affect participants' retirement behavior. The results of this analysis do not reflect any change in the retirement assumption, but we will monitor the assumption should benefits be changed in order to ensure that the assumption is in line with anticipated future plan experience.

Future actuarial measurements may differ significantly from the current measurements presented in this analysis for a variety of reasons including: changes in applicable laws, changes in plan provisions, changes in assumptions, or plan experience differing from expectations. Due to the limited scope of this analysis, we did not perform an analysis of the potential range of such future measurements.

Please note the contents of this analysis and the October 1, 2023 actuarial valuation report are considered integral parts of the actuarial opinions. In reviewing the results presented in this study, it should be noted there are risks that may not be inherently apparent to the reader that should be carefully considered. For key risks, please see the Discussion of Risk section of the October 1, 2023 actuarial valuation report.

The undersigned is familiar with the immediate and long-term aspects of pension valuations and meets the Qualification Standards of the American Academy of Actuaries necessary to render the actuarial opinions contained herein.

If you have any questions, concerns, or would like to discuss the results in greater detail, please do not hesitate to contact us.

(b) Upon the written application of a Member or the City Manager, any Member who has been totally and permanently incapacitated for the performance of his duties as the natural and proximate result of an accident occurring while in the actual performance of duty at some definite time and place, without willful negligence on the member's part, may be retired by the Board on a Service-connected disability retirement allowance, and not on an ordinary disability

retirement allowance, on the first day of a calendar month next following the execution and granting of such application; provided that the Physical Examiners, after a medical examination of the Member, shall certify that the member is totally incapacitated, mentally or physically for the further performance of duty, that such incapacity is likely to be permanent and that he should be retired.

(c) The disability retirement allowance payable to a Member retiring under the provisions of this Section 5.05 shall be an amount computed as a normal retirement benefit in accordance with Section 5.01, on the basis of the Member's final average monthly earnings and creditable service at the time of disability retirement; provided, that the amount of such allowance shall be modified in accordance with the following subsections (d) and (e).

(d)

1) The allowance payable to a disability Retirant prior to the normal retirement date shall not be less than thirty-five percent (35%) of his final average monthly earnings as of the date of disability if an ordinary disability retirement allowance is payable, and not less than sixty-five percent (65%) of such final average monthly earnings if a service connected disability retirement allowance is payable. Notwithstanding the foregoing, for Members who are in classifications within the AFSCME bargaining unit and who entered the service of the City prior to April 30, 1993, Members who are in classifications within the CWA bargaining unit and who entered the service of the City prior to February 21, 1994, Members who are in classifications within the GSA bargaining unit and who entered the service of the City prior to August 1, 1993, and Members who are classified as "Other" who entered the service of the City prior to August 1, 1993, the minimum service connected disability retirement allowance payable prior to such member's normal retirement date shall be seventy-five percent (75%) of such final average monthly earnings.

2) The allowance payable to a disability Retirant after the normal retirement date shall be an amount computed as a normal retirement benefit on the basis of the final average monthly earnings and number of years of creditable service the Member would have had if he had continued in service without interruption until the normal retirement date at the maximum rate of pay in effect at the time of his retirement for the classification from which the Member retired, provided that such allowance shall not exceed the amount payable to the Member as a disability retirement allowance prior to the normal retirement date and shall not be less than the normal retirement benefit at the normal retirement date. "Normal retirement date" as used in this Section 5.05 means the date determined in accordance with Section 5.01(a) on the assumption that the period of disability retirement is deemed to be active service as an Employee for this purpose.

(e) Any amounts which may be paid or payable on account of disability to the Member or the Member's dependents under the Workers' Compensation Act, exclusive of fixed statutory payments for the loss of any bodily member, shall be offset against and payable in lieu of that part of the disability retirement allowance provided under the Plan for the same disability, in such equitable manner as the Board shall determine.

(f)

1) During the period of disability retirement prior to the normal retirement date, the Retirant's annual earnings from employment (including self-employment) shall not exceed an amount which, when added to the disability retirement allowance payments received by him, would result in a combined earned income of one hundred twenty-five percent (125%) of the maximum current salary for the classification from which the member retired if he is receiving a service-connected disability retirement allowance, or one hundred percent (100%) of such maximum salary if he is receiving an ordinary disability retirement allowance; otherwise payments of the disability retirement allowance shall be withheld to the extent that the combined earned income exceeds the maximum permissible amount. The Member must agree at the time of disability retirement, before any benefits are paid under the Plan, to furnish annually to the Board, before May 1 of each year, a copy of the Member's Federal Income Tax return for the prior year, and any other information which the Board may require. When the Retirant's combined earned income exceeds the maximum permissible amount determined on the basis of the maximum salary as of January 1 of the prior year for the classification from which the Member retired, future payments of the disability retirement allowance shall be withheld until the total sum withheld equals the amount by which the Member's combined earned income for the prior year exceeded the maximum permissible amount. Restrictions on earnings shall not be applicable after the Retirant's normal retirement date.

2) Notwithstanding the provisions of paragraph 1, above, any member of the Classified System who became a Member of this Plan on or after March 18, 2006, and who retires on a disability retirement on or after July 1, 1995, shall be subject to the benefit adjustments in this paragraph 2. During the period of such Member's disability retirement, the Retirant's annual earnings from employment (including self-employment) shall not exceed an amount which, when added to the disability retirement allowance payments received by him, would result in a combined earned income of two hundred percent (200%) of the maximum current salary for the classification from which the Member retired if the Member is receiving a service-connected disability retirement allowance, or one hundred percent (100%) of such maximum salary if the Member is receiving an ordinary disability retirement allowance; otherwise payments of the disability retirement allowance shall be withheld to the extent that the combined

earned income exceeds the maximum permissible amount. The Member must agree at the time of his disability retirement, before any benefits are paid under the Plan, to furnish annually to the Board, before May 1 of each year, a copy of the Member's Federal Income Tax return for the prior year, and any other information which the Board may require. When the Retirant's combined earned income exceeds the maximum permissible amount determined on the basis of the maximum salary as of January 1 of the prior year for the classification from which the Member was retired, future payments of disability retirement allowance shall be withheld until the total sum withheld equals the amount by which the Member's combined earned income for the prior year exceeded the maximum permissible amount.

3) The term "earned income" shall be defined by Section 43(c)(2) of the Internal Revenue Code to mean wages, salaries, tips, and other employee compensation, plus the amount of the taxpayer's net earnings from self-employment for the taxable year (within the meaning of Section 1402(a) of the Internal Revenue Code).

(g) Any Retirant who is receiving a disability retirement allowance shall be subject, prior to the normal retirement date, to re-examination by the Physical Examiners either upon request of the Retirant. The Board or the City Manager, and the Physical Examiners shall report their conclusions as to the continuance of the incapacity. In the event that such disability shall not continue to incapacitate the Retirant for service acceptable to the City, in accordance with requirements of the Human Resources Department, the City Manager may require that such Retirant be returned to active duty at work which is the same or of similar nature to the work he performed prior to his incapacity, or returned to other work within the limits of his mental or physical capacities, at a rate of compensation not less than seventy percent (70%) of the pay to which he would have been entitled at the time of the Member's return to active service for the grade of service occupied by the Retirant prior to incapacity. Upon any such return to active duty, the Retirant shall be restored to service as a Member, the disability retirement allowance shall be terminated, the Member shall resume contributing to the Plan based on the earnings received upon reemployment, and the period during which the member was receiving a disability retirement allowance shall be included in creditable service for all purposes of the Plan.

(h) If any Retirant in receipt of a disability retirement allowance is found by the Physical Examiners, prior to the normal retirement date, to be no longer incapacitated but is not restored to service as a Member because of the member's own refusal to accept employment offered in accordance with the foregoing paragraph, the disability retirement allowance shall be terminated, and the period during which the member was receiving a disability retirement allowance shall in no event be added to the creditable service acquired prior to the incapacity.

5.06 Active Service Death Benefits

(a) Upon receipt of evidence, satisfactory to the Board, of the death of a Member who has three (3) or more years of creditable service, a monthly pension shall be paid to the surviving spouse or domestic partner of the deceased Member, provided that said spouse had been married to the Member, or the domestic partnership has been registered for at least one (1) year immediately prior to the date of his death. If there is no surviving spouse or domestic partner entitled to such pension, the pension shall be paid to the dependent child or children of the deceased Member, divided in such manner as the Board in its discretion shall determine, to continue until every such child dies or attains twenty-one (21) years of age.

(b) The monthly pension payable to the person or persons entitled thereto in accordance with the subsection (a), above, shall be equal to one-half of the amount computed as a normal service retirement allowance in accordance with Section 5.01, as though the date of the Member's death were the normal retirement date, on the basis of the Member's final average monthly earnings and creditable service at the time of death; provided that, for members of the Classified System who became members of this Plan on March 18, 2006, such pension shall not be less than thirty percent (30%) nor more than forty percent (40%) of final average monthly earnings; further provided that, in the case of a person who became a Member of the Classified System prior to November 1, 1976, if the Accumulated Employee Contributions credited to the Member at the time of death are less than would have been credited to him if he had contributed at the rate of six per centum (6%) of his earnings from the time he became a participant under the predecessor system governed by Ordinance No. 845, the pension computed in accordance with the foregoing provisions of this paragraph shall be reduced by half of the amount by which the retirement allowance of the deceased Member would have been reduced if he were retiring on a normal or early service retirement allowance as of the date of his death; and further provided that, if the pension is payable to a spouse or domestic partner who is more than fifteen (15) years younger than the Member, the pension shall be reduced to an amount which is the actuarial equivalent, of the pension payable to the spouse if said spouse or domestic partner were exactly fifteen (15) years younger than the deceased Member. In the event of the death of the spouse or domestic partner after pension payments have commenced, a pension computed in accordance with the foregoing sentence but prior to any reduction because of the difference in the ages of the deceased Member and the surviving spouse or domestic partner shall be paid to the dependent child or children of the deceased Member under twenty-one (21) years of age, divided in such manner as the Board in its discretion shall determine, until every such child dies or attains twenty-one (21) years of age.

5.07 Death Benefits after Retirement

(a) Upon receipt of evidence, satisfactory to the Board, of the death of a Retirant, a monthly pension shall be payable to the surviving spouse or domestic

partner of the deceased Retirant, provided that the spouse had been married to the Retirant or the domestic partnership was registered on the date of retirement or termination of service, whichever occurred first, and for a least one (1) year prior to such date; and further provided, that if the Retirant had elected an option in accordance with Section 5.09 which was in effect at the time of his death, monthly benefits shall be continued after his death, in lieu of benefits under this Section 5.07, in accordance with the option.

(b) The monthly pension payable to the surviving spouse or domestic partner of a deceased Retirant pursuant to the foregoing paragraph of this Section 5.07 shall be equal to fifty percent (50%) of the retirement allowance which would have been payable to the deceased Retirant if the Retirant had been alive at the time of the monthly payment; provided, that, if the surviving spouse or domestic partner is more than fifteen (15) years younger than the deceased Retirant, such monthly pension shall be reduced to an amount which is the actuarial equivalent of such pension for a spouse exactly fifteen (15) years younger than the deceased Retirant.

(c) If any such deceased Retirant is not survived by a spouse or domestic partner entitled to a pension in accordance with the foregoing paragraphs of this Section 5.07, or if the death of such a spouse or domestic partner occurs after pension payments have commenced in accordance with the foregoing paragraph, the pension which would otherwise have been payable to a surviving spouse or domestic partner eligible therefor and not more than fifteen (15) years younger than the deceased Retirant shall be payable to the dependent child or children of the said deceased Retirant, if any, divided in such manner as the Board in its discretion shall determine, to continue until every such child 1) marries or dies, or 2) attains eighteen (18) years of age or twenty-two (22) years of age in the case of a child who is a full-time student in high school or college; provided that in the case of a physically or mentally disabled child, the pension shall continue until the child recovers from the disability. As used in this paragraph, a "physically or mentally disabled child" is one who 1) is unmarried, 2) is entitled to and receives a child's disability benefit based upon determination by the Social Security Administration that the child is unable to do any substantial gainful activity by reason of any medically determinable physical or mental impairment which can be expected to result in death or which has lasted or can be expected to last for a continuous period of not less than twelve (12) months and 3) was suffering from such impairment prior to attaining eighteen (18) years of age (or twenty-two (22) years of age in the case of a child who was a full time student in high school or college. Notwithstanding the foregoing, only children who were dependent beneficiaries of the Retirant on the date of retirement or termination of service, whichever is first, shall be eligible for a pension under this paragraph.

(d) If there are no pension benefits payable to a surviving or domestic partner, child or children pursuant to paragraphs (a), (b) or (c) above, then the aforementioned pension shall be paid to the dependent parent, if any, of the

deceased member. If both parents are dependent, such benefit shall be shared equally between them.

(e) Notwithstanding any provision of this Section 5.07 to the contrary, in the event that an optional benefit had been elected by a Retirant in accordance with Section 5.07, and such election is in effect at the time of the Retirant's death, monthly benefits, if any, shall be payable after death to the person designated as the contingent annuitant in accordance with the optional election, and no benefits shall be payable as a result of the death of the Retirant under this Section 5.07.

5.08 Death Benefits for Death During Qualified Military Service. In the case of a death or disability occurring on or after January 1, 2007, if a Member dies while performing qualified military service (as defined in Section 414(u) of the Internal Revenue Code), the survivors of the Member are entitled to any additional benefits (other than benefit accruals relating to the period of qualified military service) provided under the Plan as if the Member had resumed and then terminated employment by the City on account of death.

5.09 Optional Benefits

(a) In lieu of the normal or early retirement benefits provided in Sections 5.01 and 5.02, above, a Member may elect to receive an optional benefit under this Section 5.09. The optional benefit is the actuarial equivalent of the Member's normal or early retirement benefit. If the member's written election of an optional benefit is received by the Board at least thirty (30) days prior to the date of commencement of retirement benefits, the election of the optional benefit shall become effective on the date the retirement benefit commences. If such election is received by the Board at any later date it shall become effective thirty (30) days after the date the retirement allowance commences.

(b) A Member who elects an optional benefit must designate a contingent annuitant to receive a benefit following the Member's death. A Member may designate his/her spouse, domestic partner, child or any other person who is shown, on the basis of evidence satisfactory to the Board, to be dependent upon or receiving substantial support from the Member, as the contingent annuitant; provided, if the contingent annuitant is a minor child, the retirement benefit shall not be payable under the option after the death of the Member after the minor child attains twenty-one (21) years of age. If the designated contingent annuitant is the Member's spouse or domestic partner on the date of retirement or termination of service, whichever occurred first, and for at least one (1) year prior to such date, the monthly benefit payable under the option to the Member and the surviving contingent annuitant shall be the actuarial equivalent of the benefit which would have been payable in the absence of the member's election to receive an optional benefit, as a retirement benefit to the Member after retirement and as a pension after the Member's death to the surviving spouse or domestic partner in accordance with Section 5.07; otherwise, the monthly benefit payable under the option shall be the actuarial equivalent of the retirement allowance payable only to the Member after retirement and prior to the election of an optional benefit.

(c) The election of an optional benefit may not be revoked or changed by the Member but, if the Member or the contingent annuitant designated under the option dies prior to the date the option becomes effective, the election shall thereby be revoked.

(d) A member may elect one of the following optional benefits:

Option 1. A reduced retirement benefit payable during the Member's life, and after the Member's death the same monthly benefit shall be paid to the Member's contingent annuitant for the contingent annuitant's lifetime; or

Option 2. A reduced retirement allowance payable during the Member's life, and after the member's death an allowance equal to two-thirds (2/3) of the Member's reduced monthly allowance shall be paid to the contingent annuitant for the contingent annuitant's lifetime.

5.10 Refund of Accumulated Employee Contributions

(a) A Member may elect in writing, in a form and manner determined by the Board, upon ceasing to be an Employee for any cause other than retirement or death, to receive in one sum the Accumulated Employee Contributions credited to the Member.

(b) Upon receipt of a refund of accumulated employee contributions, all creditable service shall be canceled, such creditable service shall not be reinstated if the Member is reemployed by the City in the future, and the Member shall be considered a new Member as of the date of reemployment.

(c) Upon receipt of evidence satisfactory to the Board, of the death of a Member prior to the commencement of retirement benefits, with no surviving spouse, domestic partner or dependent children entitled to receive a pension as provided in Section 5.05, the amount of the Member's Accumulated Employee Contributions at the time of death shall be payable in one sum to the Member's designated beneficiary if living, otherwise to such Member's estate.

(d) Upon receipt of evidence satisfactory to the Board, of the death of a Retirant who is not survived by a spouse, domestic partner or dependent children entitled to a pension in accordance with Section 5.07, provided the Member has not elected an optional benefit that has become effective, any excess of Accumulated Employee Contributions at retirement over the sum of the retirement benefit payments received shall be paid in one sum to the Member's designated beneficiary if living, otherwise to such Member's estate.

(e) Upon receipt of proof satisfactory to the Board, of the death of the survivor of a Retirant and the contingent annuitant under an option, if an option has been elected and has become effective, any excess of the Retirant's Accumulated Employee Contributions at the time of retirement over the sum of the benefit

payments received shall be paid to the Retirant's beneficiary if living, otherwise to the estate of the survivor of such Retirant and contingent annuitant.

(f) Upon receipt of proof satisfactory to the Board, that no further benefits are payable as the result of the death of a Member prior to the commencement of any retirement benefit, the excess, if any, of the Accumulated Employee contributions at the time of his death over the benefit payments received by the Member's spouse or domestic partner and dependent children shall be paid in a single sum to the Member's designated beneficiary if living, otherwise to such Member's estate.

(g) Upon receipt of proof satisfactory to the Board, that no further benefits are payable as the result of the death of a Retirant, the excess of the Retirant's Accumulated Employee Contributions at retirement over benefit payments received by the Retirant, the Retirant's spouse or domestic partner and dependent children shall be paid in one sum to the Retirant's designated beneficiary if living, otherwise to such Retirant's estate.

(h) A Member's beneficiary for receipt of the single sum payments in accordance with this Section 5.10 must have been designated by the Member in writing and filed with the Board prior to the member's death. A Member may designate more than one beneficiary for this purpose; provided that in such event the Member must specify the manner in which payments to the multiple beneficiaries shall be allocated, The Member may also designate alternate beneficiaries with a specified order or priorities for entitlement to single sum payments in the event of death. A Member may change the designated beneficiary or beneficiaries by similar written designation. A designation, revocation or change of the contingent annuitant under an optional benefit may be made only as provided in Section 5.09.

5.11 Post Retirement Adjustments

(a) The benefits payable to Retirants and Pensioners on the effective date of Ordinance 2006-3504, March 18, 2006, and the benefits commencing in accordance with Ordinance 2006-3504 on or after such date shall be continued without change except as increased in accordance with this Section 5.11

(b) "Improvement Factor" for the purpose of this Section 5.11 means an increase of two and one-half percent (2.5%) per annum in retirement allowances or pensions for each year commencing on October 1 following the completion of 364 days after the commencement date of the retirement allowance or, if applicable to pensions payable as the result of the death of a Member prior to his retirement, one full year after the commencement date of the pension. The Improvement Factor shall be compounded, and shall be applied to the retirement allowance or pension payable as the result of the retirement, termination or death of a Member, whichever is applicable.

(c) The return of a disability Retirant to employment with the City prior to the normal retirement date in accordance with Section 5.05(g) shall be governed by said Section 5.05(g). Return of such a person to employment with the City after the normal retirement date, as defined in Section 5.01(a), or after the date as of which he ceased to be entitled to a disability retirement allowance pursuant to Section 5.05(h) shall be governed by the provisions of Paragraph (a) or (b) of this Section 5.11, whichever is applicable at the time of such return.

(d) Upon the death of a Retirant, the pension payable thereafter to his dependent beneficiary shall be based on the retirement allowance payable as of the date of such death, including the benefit improvements granted in accordance with this Section 5.11, and on each October 1 subsequent to such death the Improvement Factor shall be applied to the then-current retirement allowance.

5.12 Return to Active Service

(a) If a former Member who is entitled to a vested retirement allowance not yet payable returns to service with the City as an Employee before such allowance has become payable, he shall again become a Member, but benefits payable with respect to earnings and creditable service after the Member's reemployment shall be based on the provisions applicable to a Member whose employment with the City commences on the date of reemployment. He shall contribute to the Plan at the rate required, pursuant to Section 6.02, of Employees who become Members for the first time. Creditable service rendered before and after the Member's return to service shall be considered for the purpose of determining the benefit payable; provided, in the event of the Member's subsequent termination of employment for reasons other than death or retirement, only creditable service rendered after reemployment shall be considered for the purpose of determining entitlement to a vested retirement benefit based on service rendered after reemployment. Upon subsequent retirement, the Member's retirement benefit shall be equal to the sum of the amounts computed on the basis of final average monthly earnings and creditable service with respect to each period of service as an Employee; provided that the retirement allowance shall not exceed the retirement allowance which would have been payable if creditable service had been one period of continuous service.

(b) Notwithstanding the provisions of paragraph (a) above, the benefits of a Member hired prior to September 30, 2010 (or October 27, 2010 for members of the CWA bargaining unit) who terminates employment and at the time of termination is entitled to a vested retirement allowance not yet payable, does not receive a refund of Accumulated Employee Contributions, and subsequently returns to service with the City as an Employee before such allowance has become payable, shall be determined in accordance with this paragraph (b). Upon reemployment, such member shall again become a vested Member, and shall continue to accrue benefits and make contributions to the Plan for creditable service after the Member's reemployment in accordance with the Plan provisions in effect on the date of reemployment, except as otherwise provided in this

paragraph (b). The Member's benefit for the initial period of employment shall be three percent (3%) of Final Average Monthly Earnings multiplied by creditable service accrued during the initial period of employment, and two and one-half percent (2.5%) of Final Average Monthly Earnings multiplied by creditable service accrued after reemployment; provided the Member's retirement allowance shall not exceed eighty percent (80%) of Final Average Monthly Earnings. The Member's normal retirement date shall be the first day of the calendar month coincident with or next following the attainment of age fifty-five (55) and completion of five (5) or more years of creditable service. The retiree Cost of Living Adjustment applied to the member's benefit shall be 2.5% per year applied to the benefit based on creditable service accrued during the initial period of employment, and 1.5% per year applied to the benefit based on creditable service accrued after reemployment. The provisions of this paragraph (b) shall take effect on [effective date of ordinance] for Members not included in any bargaining unit, but shall not take effect for bargaining unit Members until the provisions of this paragraph (b) are agreed to by the City and the union representing the bargaining unit.

(c) Notwithstanding the provisions of paragraph (a) above, the benefits of a Member hired prior to September 30, 2010 (or October 27, 2010 for members of the CWA bargaining unit) who terminates employment and at the time of termination is not entitled to a vested retirement allowance not yet payable, does not receive a refund of Accumulated Employee Contributions, and subsequently returns to service with the City as an Employee, shall be determined in accordance with this paragraph (c). Upon reemployment, such member shall retain his/her credited service for the initial period of employment, and continue to accrue benefits and make contributions to the Plan for creditable service after the Member's reemployment in accordance with the Plan provisions in effect on the date of reemployment, except as otherwise provided in this paragraph. The Member's benefit for the initial period of employment shall be three percent (3%) of Final Average Monthly Earnings multiplied by creditable service accrued during the initial period of employment, and two and one-half percent (2.5%) of Final Average Monthly Earnings multiplied by creditable service accrued after reemployment; provided the Member's retirement allowance shall not exceed eighty percent (80%) of Final Average Monthly Earnings. The retiree Cost of Living Adjustment applied to the member's benefit shall be 1.5% per year applied to benefit based on all years of creditable service. The Member's normal retirement date shall be the first day of the calendar month coincident with or next following the attainment of age sixty-two (62) and completion of five (5) or more years of creditable service. The provisions of this paragraph (c) shall take effect on [effective date of ordinance] for Members not included in any bargaining unit, but shall not take effect for bargaining unit Members until the provisions of this paragraph (b) are agreed to by the City and the union representing the bargaining unit.

(db) Should a Retirant, other than a disability Retirant restored to service in accordance with Section 5.05(h), be employed by the City as an Employee, such Member's retirement benefit shall cease and the Member shall again become a

Member of the Plan, but benefits payable with respect to the Member's earnings and creditable service after reemployment shall be based on the provisions applicable to a Member whose employment with the city commences on the date of reemployment. The Member shall contribute at the rate required, pursuant to Section 6.02, of Employees who become Members for the first time. An amount equal to the excess, if any, of the Member's Accumulated Employee Contributions at the time of his retirement over the amount of retirement benefits received shall be credited as Accumulated Employee Contributions as of the date of reemployment. Creditable service rendered before and after reemployment shall be considered for the purpose of determining entitlement to a normal or early service retirement allowance upon subsequent retirement. Upon subsequent retirement, the Member's retirement allowance shall be equal to the sum of the retirement allowance payable during the previous retirement, adjusted actuarially, if reemployment is prior to the normal retirement date, for the period from the date of reemployment to the date of subsequent retirement or normal retirement date, whichever occurs first, plus the amount computed as a retirement allowance on the basis of final average monthly earnings and creditable service for the period after the last date of reemployment; provided that the total retirement benefit shall not exceed the retirement allowance which would have been payable if all years of creditable service had been a continuous period. If an option had been elected and in effect at the time of reemployment, the option shall continue to be in effect after reemployment, with respect to the retirement benefit payable prior to reemployment.

(ee) The return of a disability Retirant to employment with the City prior to the normal retirement date in accordance with Section 5.05(g) shall be governed by said Section 5.05(g). Return of such a person to employment with the City after the normal retirement date, as defined in Section 5.05, or after the date as of which he ceased to be entitled to a disability retirement allowance pursuant to Section 5.05(h) shall be governed by the provisions of Paragraph (a) or (b) of this Section 5.12, whichever is applicable at the time of such return.

(fd) Should a Pensioner be employed by the City in any capacity for which regular compensation is paid, the Pension shall cease to be paid to said Pensioner for the period of such employment, and such person shall be subject to the provisions of this Ordinance as any other person employed by the City. Upon termination of such employment, such person shall elect to receive either the benefit to which he was previously entitled as a Pensioner if still eligible therefore or the benefit, if any, to which he is otherwise entitled on the basis of his membership in this Plan.

(g) Notwithstanding the provisions of paragraph (a) above, a Member hired on or after September 30, 2010 (or October 27, 2010 for members of the CWA bargaining unit) who terminates employment, does not receive a refund of Accumulated Employee Contributions, and subsequently returns to service with the City, shall again become a Member, and shall continue to accrue benefits and make contributions to the Plan for creditable service after the Member's reemployment in accordance with the Plan provisions in effect on the date of

reemployment. The Member's creditable service for the initial period of employment shall be applied for vesting purposes, and the benefit multiplier applicable to the initial period of employment shall also be applied in calculating the Member's retirement benefit; provided the Member's retirement allowance shall not exceed eighty percent (80%) of Final Average Monthly Earnings. The provisions of this paragraph (g) shall take effect on [effective date of ordinance] for Members not included in any bargaining unit, but shall not take effect for bargaining unit Members until the provisions of this paragraph (f) are agreed to by the City and the union representing the bargaining unit.

(b) DROP plan features:

- 1) An eligible Member who elects to participate in the DROP will be considered to have retired for purposes of the Plan upon entry into the DROP, except that such Member shall be eligible to vote for and serve as an Employee member of the Board of Trustees during the DROP participation period. The Member's monthly retirement benefit, determined in accordance with the Plan based on years of creditable service and final average monthly earnings at the time the Member enters the DROP, will be paid into the Member's DROP account every month during the DROP period.
- 2) No Member contributions shall be required after a Member enters the DROP, and the Member will not accrue any additional creditable service or any additional benefits under the Plan after entering the DROP. No City normal cost contributions shall be required after a Member enters the DROP and DROP participants shall be excluded from the covered payroll for the Plan.
- 3) A Member who elects to participate in the DROP shall not be eligible for disability or preretirement death benefits under the Plan; nor shall a Member be eligible for any post retirement adjustment provided in Section 5.11 during the DROP participation period.
- 4) A Member who elects to participate in the DROP shall retain the earned balance of annual and sick leave as of the date of entry into the DROP, and shall continue to earn annual and sick leave during the DROP period, in accordance with applicable City ordinances. Alternatively, at the time of entry into the DROP, a Member may request full or partial payment of the earned balance of annual and sick leave as of the date of entry into the DROP, up to the maximum allowed by applicable City ordinances for employees who

terminate City employment, but reduced by the amount of annual and sick leave used for the purchase of additional credited service under Section 4.3, if any, at the Member's rate of compensation upon entering the DROP; provided that the Member must retain at least 120 hours of accrued sick leave after any such payment. Upon termination of City employment, a Member who has participated in the DROP shall be eligible to receive payment for the earned balance of annual and sick leave as of the date of termination, up to the maximum allowed by applicable City ordinances for employees who terminate City employment, but reduced by the amount of annual and sick leave for which payment was received upon entry into the DROP, if any; and further reduced by the amount of annual and sick leave used for the purchase of additional credited service under Section 4.3, if any. In no event shall payments for accrued annual or sick leave be included in a member's Earnings for purposes of the Plan.

5) As a condition of participating in the DROP, the Member must agree to terminate City employment at the conclusion of the DROP period, and to submit an irrevocable letter of resignation stating this prior to entering the DROP. A Member who elects to participate in the DROP must also submit an irrevocable written DROP election prior to entering the DROP on a form provided by the Board. Notwithstanding the preceding sentence:

(a) Eligible Members who are participants in the DROP on July 1, 2013, shall be given a one-time opportunity to submit an irrevocable amended election form, as provided in Section 5.13 (a) 5., extending the DROP period to a maximum of sixty (60) months in total.

(b) Eligible Members who are participants in the DROP on October 1, 2013, shall be given a one-time opportunity to submit an irrevocable amended election form, as provided in Section 5.13 (a) 5, extending the DROP period to a maximum of sixty (60) months in total. 6) At the conclusion of the DROP period and upon termination of City employment, the Member's monthly retirement benefit shall be paid to the Member in accordance with the Plan. In the event of the Member's death during or at the conclusion of the DROP period, a benefit may be payable in accordance with Section 5.07.

7) Participation in the DROP is not a guarantee of City employment, and DROP participants will be subject to the same terms and conditions of employment that are applicable to employees who are not DROP participants.

8) During participation in the DROP, the Member's monthly retirement benefit will be paid into the DROP account, and shall be credited/debited with earnings/losses as provided herein. The Member may direct that their DROP account be invested in any of the investment options approved by the Board, on forms provided by the Board. Any gains on the Member's DROP account investments shall be credited to the Member's DROP account; and any losses incurred by the Member shall be deducted from the Member's DROP account balance, and shall not be made up by the City or the Retirement Plan. A Member's DROP account shall only be credited or debited with earnings/losses while the Member is a participant in the DROP.

9) A DROP participant may designate a beneficiary or beneficiaries for his/her DROP account on a form provided by the Board.

10) Within thirty (30) days following a DROP participant's termination of City employment or death, whichever occurs first, the Member, or in the event of the Member's death the Member's designated beneficiary, may submit a written election on a form approved by the Board, to receive the Member's entire DROP account balance, which shall be distributed to the Member (or in the event of the Member's death, to the Member's designated beneficiary or estate in accordance with paragraph (b)9., below) in a cash lump sum, unless the Member elects to have all or any portion of an eligible rollover distribution paid directly to an IRA or eligible retirement plan specified by the Member in a direct rollover. Any such direct rollover shall be processed in accordance with Article 12 of the Plan. In the event a Member or designated beneficiary does not submit a written election to receive a distribution of the Member's DROP account balance within thirty (30) days following the Member's termination of City employment or death, the Member's DROP account shall be maintained by the Plan but shall not be credited with earnings/losses after thirty (30) days following the Member's termination of City employment or death.

11) If a DROP participant dies before his or her DROP account is distributed, the participant's designated beneficiary shall have the same rights as the participant with respect to the distribution of the DROP account. If the participant has not designated a beneficiary, the DROP account balance shall be paid to the Member's estate.

12) The Board of Trustees shall make such administrative rules as are necessary for the efficient operation of DROP, but shall not adopt any rule that is inconsistent with this Ordinance or the Plan.

13) The DROP shall be administered so that the Plan remains qualified under the Internal Revenue Service Code and in compliance with applicable laws and regulations.

14) Limit under Section 415(b) of the Internal Revenue Code. Notwithstanding any other provisions of this Plan, the retirement benefit of a Member shall be reduced to the extent that it exceeds amounts specified in Section 415(b) of the Internal Revenue Code. For purposes of the application of Section 415(b), each Member's compensation shall be determined in accordance with Section 1.415(c)-2 and shall be defined as remuneration for services to the City including wages, salaries, fees for professional services and other amounts for personal services actually rendered in the course of employment with the City to the extent that such amounts are included in gross income (or to the extent amounts would have been received and includible in gross income but for an election under Internal Revenue Code section 125(a), 132(f)(4), 402(e)(3), 402(h)(1)(B), 402(k) or 457(b)), and compensation in excess of the limitations set forth in Section 401(a)(17) of the Internal Revenue Code, and regulations promulgated thereunder, shall be disregarded.

Section 6. Financing

6.01 Assets of Predecessor System

(a) All moneys, investments and assets of the Classified System and Unclassified System as of March 18, 2006 shall become assets of this Plan as of such date.

(b) The amount credited to each member of the Classified System and Unclassified System as "Accumulated Employee Contributions" as of March 18, 2006 shall be credited to each such Member under this Plan on such date as Accumulated Employee Contributions.

6.02 Contributions by Members

(a) Each Member shall contribute to the Plan eight percent (8%) of earnings, except as otherwise provided in this Section 6.02. Notwithstanding the preceding sentence, effective July 14, 2010 each Member in a classification within the AFSCME an GSA bargaining units, and each Unclassified and "Other" Member, shall contribute to the Plan ten percent (10%) of earnings, except as otherwise provided in this Section 6.02. Notwithstanding the first sentence of this subsection (a), effective November 27, 2010, each Member in a classification within the CWA (MBEBA) collective bargaining unit shall contribute to the Plan ten percent (10%) of earnings except as otherwise provided in this Section 6.02, and contingent on state approval of the actuarial impact statement confirming a reduction in the City's annual required pension contribution for fiscal year 2010-2011 associated with the pension changes contained in the 2009-2012 CWA collective bargaining agreement of at least \$1,000,050. The contributions made by each Member to the Plan shall be deducted from the Member's Earnings and designated as Employer contributions pursuant to section 414(h) of the Internal Revenue Code. Such designation is contingent upon the contributions being excluded from the

Members' gross income for Federal Income Tax purposes. For all other purposes of the Plan, such contributions shall be considered to be Member contributions.

(b) Notwithstanding subsection (a) above, all persons entering service with the City prior to April 1, 1993 who are in the classifications within the AFSCME bargaining unit; all persons entering service with the City prior to February 21, 1994 who are in classifications within the CWA (MBEBA) bargaining unit, and all persons entering service with the City prior to August 1, 1993 who are in classifications within the GSA bargaining unit or classified as "Other" who were members of the Classified Plan continuously from the date they entered service with the City until March 18, 2006, shall contribute to the Plan ten percent (10%) of their earnings throughout their service as a Member of this Plan. Notwithstanding the preceding sentence, effective July 14, 2010 each Member described in the preceding sentence who is in a classification within the AFSCME or GSA bargaining units shall contribute to the Plan twelve percent (12%) of earnings; and effective January 18, 2010, each Member described in the preceding sentence, classified as "Other" shall contribute to the Plan twelve percent (12%) of earnings. Notwithstanding the first sentence of this subsection (b), effective November 27, 2010, each Member described in the first sentence of this subsection (b) who is in a classification within the CWA (MBEBA) bargaining unit shall contribute to the Plan twelve percent (12%) of earnings, contingent on state approval of the actuarial impact statement confirming a reduction in the City's annual required pension contribution for fiscal year 2010-2011 associated with the pension change as contained in the 2009-2012 CWA collective bargaining agreement of at least \$1,000,050.

(c) Notwithstanding subsection (a), above, Members of the Unclassified System who entered service with the City prior to October 18, 1992, were continuously members of the Unclassified System from that date until March 18, 2006, and who became Members of this Plan on March 18, 2006, shall contribute to the Plan ten percent (10%) of their earnings. Notwithstanding the preceding sentence, effective January 18, 2010, each Member described in the preceding sentence shall contribute to the Plan twelve percent (12%) of earnings.

(d) Notwithstanding subsection (a), above, Members who are in classifications within the CWA bargaining unit, members of the Classified System who became Members of this Plan on March 18, 2006, and are not in any bargaining unit, and members of the Unclassified System who became Members of this Plan on March 18, 2006, who accrue the maximum retirement benefit payable under the Plan and continue in City employment, shall contribute to the Plan an amount equal to the applicable percentage contribution in accordance with subsections (a), (b) and (c), above, but such percentage shall be applied only to the amount of earnings in excess of such Members' rate of earnings at the time the member accrued the maximum retirement benefit payable under the Plan. For example, if a Member with earnings of \$2,000 each pay period attains the maximum benefit percentage payable under the plan (80% or 90%, depending on which cap applies to the member), the employee contribution will cease until the member has earnings in excess of \$2,000, at which time the Employee contribution would be 10% (or 12%,

depending on the contribution rate that is applicable) of the excess over \$2,000. If the member's earnings increase to \$2,500 per pay period, the Member would contribute \$50.00 (at the 10% contribution rate) each pay period. The limitation on member contributions provided in this subsection shall apply to Members in classifications within the AFSCME and GSA bargaining units upon ratification of a collective bargaining agreement that provides for such limitation.

(e) Notwithstanding subsections (a) and (b) above, for members who are in classifications within the AFCSME bargaining unit:

- 1) For Members hired prior to April 30, 1993, the employee contribution shall be twelve percent (12%) of earnings effective July 14, 2010 through April 30, 2013; ten percent (10%) of earnings effective May 1, 2013 through April 23, 2014; and twelve percent (12%) of earnings effective April 23, 2014.
- 2) For Members hired on or after April 30, 1993 and before September 30, 2010, the employee contribution shall be ten percent (10%) of earnings effective July 14, 2010 through April 30, 2013; eight percent (8%) of earnings effective May 1, 2013 through April 23, 2014; and ten percent (10%) of earnings effective April 23, 2014.
- 3) For members hired on or after September 30, 2010, the employee contribution shall be ten percent (10%) of earnings.
- 4) The employee contribution provided in paragraphs 1. and 2. above shall decrease by two percent (2%) of earnings when the Plan actuary confirms that the City's annual required contribution to the Plan is twenty-three and one-half percent (23.5%) of pensionable payroll or less. The two percent decrease in the employee contribution shall take effect on the same date as the City's annual required contribution of twenty-three and one-half percent (23.5%) of pensionable payroll or less.

6.03 Contributions by City

(a) It is the intent of this Ordinance that the City contribute to the Plan each year the amounts actuarially determined to be required, in addition to contributions by Members, to cover the cost of the benefits provided by the Plan. All administrative expenses shall be paid by the Plan. Effective September 30, 2013, the City shall annually contribute no less than the net City's "normal cost" of the Plan. The net "normal cost" is the annual cost of the Plan net of Member contribution assigned to the current Plan year. If the net City "normal cost" for any Plan year exceeds the City's annual required contribution as determined in accordance with Part VII, Chapter 112, Florida Statutes, the excess shall be held in reserve as part of Fund assets, designed as the pension stabilization fund, and shall be used to offset the City's annual required contribution to any Plan year as determined by the City. The pension stabilization fund shall be accounted for

separately and not included as assets of the Fund for Plan's valuation purposes, and shall be annually credited or debited with gains and losses at the same rate of return as the overall net market rate of return on Fund investments.

(b) An actuarial valuation investigation of the Plan shall be performed annually to determine the contribution payable by the City. On the basis of regular interest and of such mortality and service tables as shall be adopted by the Board of Trustees, the actuary shall determine, immediately after making each valuation, the percentage of the compensation of all Members required, in addition to contributions payable by such Members, as contributions payable by the City to provide the benefits of the Plan currently accruing to such Members; the rate per centum so determined shall be known as the "Normal Contribution Rate" and the contributions based on this rate shall be known as "Normal Contributions." In addition, the actuary shall determine the part of the liabilities for benefits under the Plan not covered by assets in hand, future contributions of Members and future normal contributions of the City and this amount shall be known as the "Unfunded Accrued Liability"; the percentage of compensation of Members determined to be payable on account of such liability shall be known as the "Accrued Liability Contributions Rate". Also, the actuary shall determine the percentage of compensation necessary to provide for payment of the administrative expenses of the Plan and this rate shall be known as the "Administrative Cost Rate". The actuary shall recommend on the basis of each valuation a Normal Contribution Rate and an Accrued Liability Contribution Rate and an Administrative Cost Contribution Rate.

(c) It is the intention of this Ordinance that contributions be set at such levels, as recommended by the Actuary designated by the Board, as to provide for a systematic amortization of any unfunded accrued liability over a period of thirty (30) years from the date as of which such liability is incurred.

(d) During the Plan year beginning October 1, 2013, and at least once every three years thereafter, there shall be an experience study of the Plan's actuarial assumptions performed by the actuary selected by the City. The actuary shall make recommendations for any changes and assumptions based on the results of the experience study. In the event the Board of Trustees or Plan actuary disagrees with the recommended assumption changes, the Board or Plan actuary shall present the basis of their disagreement and justify any deviation from the recommended assumptions to the City Commission.

(e) Effective September 30, 2013, the City shall require five, ten and twenty year projections of required pension contributions as part of the annual actuarial valuations for the Plan. These projections shall be based on current actuarial assumptions for the Plan. The projections shall be updated to reflect the cost of any proposed benefit enhancement before the City Commission agrees to the enhancement. The cost of these studies shall be funded separately from the annual contribution to the pension plan.

6.04 Contributions by other Agencies. The Miami Beach Visitor and Convention Authority, this Plan, the Classified Plan, the Unclassified Plan, and the City Pension Fund for Firemen and Policemen shall contribute to this Plan the same percentage of payroll rate as the City on behalf of employees who become members of this Plan.

The Preservation of Benefits Plan benefit shall be computed and payable under the same terms and conditions and to the same person as would have applied under the Plan were it not for the reduction resulting from the application of section 415(b) of the Internal Revenue Code.

COMMISSION MEMORANDUM

TO: Mayor Dan Gelber and Members of the City Commission

FROM: Rafael A. Paz, City Attorney 

SECOND READING

DATE: February 22, 2023

SUBJECT: AN ORDINANCE OF THE MAYOR AND CITY COMMISSION OF THE CITY OF MIAMI BEACH, FLORIDA, AMENDING AND RESTATING THE MIAMI BEACH EMPLOYEES' RETIREMENT PLAN CREATED BY ORDINANCE NO. 2006-3504, AS SUBSEQUENTLY AMENDED, BY AMENDING SECTIONS 2, 3, 4, 5, AND 12 OF THE PLAN; PROVIDING FOR SEVERABILITY; REPEALING ALL ORDINANCES IN CONFLICT THEREWITH; AND PROVIDING AN EFFECTIVE DATE.

The proposed Ordinance is sponsored by Commissioner David Richardson and is submitted for consideration on Second Reading at the February 22, 2023 City Commission meeting. On February 1, 2023, the Mayor and City Commission adopted the proposed Ordinance on First Reading. No changes have been made between First and Second Reading. A summary of the proposed Ordinance is set forth below.

BACKGROUND

This proposed Ordinance, which would amend the Miami Beach Employees' Retirement Plan (the "Pension Plan"), was originally referred to FERC in 2021. Originally, the item was intended to solely deal with finding an equitable solution for six (6) employees who were fully vested in their Tier B pension, left City employment, subsequently returned to City employment, and re-vested under Tier C of the Pension Plan. This scenario presents administrative and other challenges because employees would essentially have two (2) different pensions for their City service, and some of the benefits of the Tier B pension directly conflict with Tier C, namely the normal retirement age for a Tier B employee is 55, and the normal retirement age for a Tier C employee is 62.

The below chart provides detail benefit information of each Tier:

Tier B	Tier C
<ul style="list-style-type: none"> • Age 55 with 5 years of Creditable Service • 3% Multiplier • Annual Cost of Living 2.5% • 50% Spouse/Domestic Partner Survivor benefit • Health benefits for retirees hired before 3/18/2006 determined each year as a part of the budget process, currently approximately 50% of premium • Health benefits for retirees hired on or after 3/18/2006 is a stipend of \$10 for each Creditable Year of Service, up to a maximum of \$250 a month for under age 65; \$5 for each Creditable Year of Service, up to a maximum of \$125 a month for age 65 and older and 62 can be calculated and paid out retroactively. 	<ul style="list-style-type: none"> • The earlier of age 55 with 30 years of Creditable Service or Age 62 with 5 years of Creditable Service • 2.5% Multiplier • Annual Cost of Living 1.5% • Life Annuity with optional Survivor Benefits • Health benefits for retirees hired before 3/18/2006 determined each year as a part of the budget process, currently approximately 50% of premium • Health benefits for retirees hired on or after 3/18/2006 is a stipend of \$10 for each Creditable Year of Service, up to a maximum of \$250 a month for under age 65; \$5 for each Creditable Year of Service, up to a maximum of \$125 a month for age 65 and older.

The below chart provides the eligibility dates for each Pension Plan Tier:

Classification	Group	Tier A	Tier B	Tier C
Classified	AFSCME	Hired before 4/30/1993	Hired on or after 4/30/1993 and before 9/30/2010	Hired on or after 9/30/2010
	GSA or "Other"	Hired before 8/1/1993	Hired on or after 8/1/1993 and before 9/30/2010	Hired on or after 9/30/2010
	CWA	Hired before 2/21/1994	Hired on or after 2/21/1994 and before 10/27/2010	Hired on or after 10/27/2010
Unclassified	N/A	Hired before 10/18/1992	Hired on or after 10/18/1992 and before 9/30/2010	Hired on or after 9/30/2010

At the April 29, 2022 FERC meeting, the Committee members asked the Administration to continue exploring options that would equitably address the issues for employees who leave the City and return at a later date.

The referral of this item was initially sponsored by Commissioner Samuelian. After Commissioner Samuelian's untimely passing, the item was subsequently sponsored by Commissioner Richardson at the July 29, 2022 FERC Meeting, who has proposed a solution to the foregoing equity issues for the vested Tier B employees, along with a prospective

solution for other employees who leave City service prior to vesting and subsequently return to City service.

In addition, Commissioner Richardson has proposed other amendments, to better align the Pension Plan to the City Charter and City Code, particularly as it relates to Charter Officers and Elected Officials.

ANALYSIS

The Human Resources Department and the City Attorney's Office have engaged the City's outside pension counsel to assist with the drafting of the proposed Ordinance amendments, which are attached as an exhibit to this Committee Memorandum.

The proposed Ordinance amendments provide as follows

1. **Resolution for Vested Tier B Members Who Left City Employment and Were Subsequently Re-employed and Vested in Tier C.** The Ordinance allows the vested Tier B members who terminated employment, did not receive a refund of their accumulated contributions, and were subsequently reemployed, to continue as a vested Tier B member following reemployment. For such employees, the member would receive the benefits of Tier B under a single pension (namely, the more favorable retirement age of 55 years provided to Tier B members), with the exception that for each year of service following their re-employment after September 30, 2010, the pension accrual multiplier for those years shall be the same 2.5% provided to Tier C members hired after September 30, 2010 (October 27, 2010 for CWA bargaining unit members). In other words, the members would receive a single pension - with most of the more favorable Tier B benefits - but with an accrual factor of 3.0% and COLA of 2.5% for each year of service in Tier B, and an accrual factor of 2.5% and COLA of 1.5% for each year of service in Tier C after re-employment with the City. Any former city employee who previously vested in Tier B and subsequently returns to City employment would benefit from the proposed new rule in the same manner.
2. Resolution for Tier B Employees Who Left City Employment Prior to Vesting and Are Subsequently Re-Employed by the City in Tier C. There are a few employees with a period of service in Tier B but who left City employment prior to vesting and were subsequently re-employed by the City after September 30, 2010 (October 27, 2010 for CWA bargaining unit members). If the employees did not receive a refund of their accumulated contributions (i.e., if the employees did not cash out of the Plan), the proposed Ordinance would allow the employees to count their prior period of service toward creditable service in Tier C. Once vested in Tier C, the member will receive all benefits afforded to members in Tier C (including the 1.5% COLA for all periods of service), with the exception that the pension accrual factor for periods of service under Tier B would be 3% (the Tier B multiplier), and the pension accrual factor for periods of service after re-employment would be the standard Tier C multiplier of 2.5%.

3. **Resolution for Tier C Employees Who Leave City Employment, and Subsequently Return to City Employment.** The Ordinance resolves the foregoing issues prospectively for all employees in Tier C, to allow Tier C members who terminate employment but leave their contributions in the Plan to be re-employed and continue accruing benefits in accordance with Tier C (with all periods of service in Tier C counting toward the vested pension benefit under Tier C)
4. **Automatic Application for Bargaining Unit Employees Upon Agreement with the Unions.** The Ordinance applies the foregoing provisions immediately to non-bargaining unit employees, and would apply to bargaining unit employees upon agreement with the unions.
5. **Vesting Period and Benefits for Elected Officials and Charter Officers.** With regard to Charter Officers and Elected Officials, the Ordinance conforms certain Plan provisions to the City Charter and City Code, and makes other changes as follows:
 - a. For Elected Officials, provides that an Elected Official is vested in the Plan upon completion of 4 years of service or one full term, as contemplated in Section 2.03 of the City Charter, which provides that service "in excess of 50 percent of any term of office shall be considered a full term").
 - b. The new vesting period for Elected Officials would resolve the inherent equity issue of requiring a 5 year vesting period for Elected Officials who only serve for a term of 4 years (for commissioners) or 2 years (for the Mayor), effectively precluding Commissioners from vesting as members of the Plan unless they seek and are elected to a second term of office, and precluding the Mayor from vesting as a member of the Plan unless the Mayor seeks and is elected to three terms of office.
 - c. For Charter Officers, the proposed Ordinance provides for a vesting period of 4 years (as opposed to the current vesting period of 5 years). In the case of the Inspector General in particular, a 4-year vesting period for the Inspector General would align the Plan with Section 2-256(b)(3) of the City Code, which provides that the Inspector General serves for a term of 4 years, unless the Inspector General is reappointed by the City Commission for a second four-year term.
 - d. Adds a definition of "Charter Officers" at Section 2.05, to include the City Manager, City Attorney, City Clerk and Inspector General.
 - e. Adds a definition of "Final Average Monthly Earnings" for Elected Officials and Charter Officers, to mean the highest 5 year average annual earnings, or if the member has less than 5 years of service, the average for the member's period of service.
 - f. Clarifies the benefit calculation provision in Section 5.01 (b)(6) for Elected Officials, the City Manager, City Attorney and City Clerk, who also have periods of service in other City positions, to make it clear that the member's benefit will consist of 2

parts: (1) the 4% pension accrual factor applied to the member's final average monthly earnings for service as an Elected Official, City Manager, City Attorney and City Clerk; plus (2) the benefit accrual factor otherwise applicable to the member's other service applied to the member's final average monthly earnings for the period of other service as a City employee, namely, either a 3% accrual factor for Tier B periods of service, or a 2.5% accrual factor for Tier C periods of service.

Finally, due to limitations in State law, the proposed new vesting period and other benefits, if adopted by the City Commission, could only apply to employees and officers employed or holding office at the time the Ordinance amendment is adopted. Section 215.425 of the Florida Statutes, as well as court opinions and Florida Attorney General opinions interpreting said statute, make clear that government entities are prohibited from expending public funds to award extra or additional compensation to former employees for work that has already been performed. The prohibition does not apply if the extra compensation is authorized while the employee or official is still performing services for the governmental entity. Thus, the pension changes in the ordinance would not apply to former Elected Officials and any employee who was not employed by the City at the time the ordinance takes effect. However, the provisions outlined above in Sections 1-3 and 5(g) would apply to a former Elected Official or any other employee who returns to City service in a position covered by the Plan.

FINANCIAL IMPACT

Pursuant to Section 112.63 of the Florida Statutes, a statement of the actuarial impact of the proposed change upon the local retirement system shall be provided prior to the final adoption of the proposed Ordinance.

Re: City of Miami Beach Employees' Retirement Plan

Dear Board:

As requested, we are writing to provide a supplementary explanation of the cost impact for the proposed benefit changes set forth in our March 19, 2023 actuarial impact statement. The cost impact, determined as of October 1, 2021, applicable to the fiscal year ending September 30, 2023, is as follows, when compared to the contribution requirements under the current benefit structure as calculated in the October 1, 2021 actuarial valuation report prepared by Gabriel, Roeder, Smith & Company (GRS).

	<u>Proposed</u> (Foster & Foster)	<u>Current</u> (GRS)
Minimum-Required Contribution	\$38,772,056	\$38,258,786
Member Contributions (Est.)	9,152,572	9,155,767
City Required Contribution	\$29,619,484	\$29,103,019

Please find below a breakdown of the impact for each category of employees affected by the proposed benefit changes:

	<u>Cost Impact</u>
Benefit Changes for Elected Officials:	\$25,693
Benefit Changes for Charter Officers:	\$33,340
Benefit Changes for Tier B and Tier C Rehires:	\$57,744

Any additional impact was due to the transition of actuarial firms from GRS to Foster & Foster. A preliminary step in preparing the Actuarial Impact Statement was replicating the October 1, 2021 actuarial valuation results produced by GRS. It is important to keep in mind that slight differences in actuarial methods or software can combine to produce differences of up to 5%, which is the industry-accepted margin for determining whether results have been sufficiently replicated. We were able to replicate the Actuarial Accrued Liability and Normal Cost within 0.7% and -1.1%, respectively.

Sincerely,

Sara E. Carlson, ASA, EA, MAAA

ACTUARIAL IMPACT STATEMENT

March 19, 2023

Attached hereto is a comparison of the impact on the Minimum Required Contribution (per Chapter 112, Florida Statutes) and the Required City Contribution, resulting from the implementation of the following changes:

- Effective January 1, 2023, for Members who have served as an Elected Official or Charter Officer and terminate employment, retire, or enter DROP, "Final Average Monthly Earnings" means the average of the best 5 years of earnings.
- For Members who have served as an Elected Official or Charter Officer on and after December 12, 2012, benefits earned as an Elected Official or Charter Officer are determined as 4% of final average monthly earnings multiplied by years of creditable service as an Elected Official or Charter Officer. Benefits for service in other roles are calculated separately based on the benefit multiplier, final average monthly earnings, and creditable service applicable to the service in that role.
- Members who have served as an Elected Official or Charter Officer become 100% vested at 4 years of creditable service.
- For Members who terminated vested under Tier B provisions and were re-hired under Tier C provisions,
 - The benefit for the Tier B service is based on the Tier B benefit multiplier (3.0%) and receives the Tier B COLA (2.5%)
 - The benefit for the Tier C service is based on the Tier C benefit multiplier (2.5%) and receives the Tier C COLA (1.5%).
 - Eligibility for both benefits is based on Tier B provisions (e.g. Normal Retirement Date of age 55 with 5 years of creditable service).
- For Members who terminated non-vested under Tier B provisions, did not receive a refund of contributions, and were re-hired under Tier C provisions,
 - The benefit for the Tier B service is based on the Tier B benefit multiplier (3.0%).
 - The benefit for the Tier C service is based on the Tier C benefit multiplier (2.5%).
 - Eligibility for both benefits is based on Tier C provisions (e.g. Normal Retirement Date of age 55 with 30 years of creditable service or age 62 with 5 years of creditable service) and both benefits are subject to the Tier C COLA (1.5%).

- For Tier C Members who terminate employment and are re-employed, the service from the initial period is included when calculating benefits and the benefit is based on the benefit rate applicable to initial period of service.

The cost impact, determined as of October 1, 2021, applicable to the fiscal year ending September 30, 2023, is as follows, when compared to the contribution requirements under the current benefit structure as calculated in the October 1, 2021 actuarial valuation report prepared by Gabriel, Roeder, Smith & Company (GRS).

	<u>Proposed</u> (Foster & Foster)	<u>Current</u> (GRS)
Minimum Required Contribution	\$38,772,056	\$38,258,786
Member Contributions (Est.)	9,152,572	9,155,767

ACTUARIAL IMPACT STATEMENT

March 19, 2023

Unless otherwise noted, all data, assumptions, methods and plan provisions are the same as in the October 1, 2021 actuarial valuation report. It should be noted that changes to retirement benefits could potentially affect participants' retirement or termination behavior. We will monitor and advise of any recommended changes with future experience studies.

Future actuarial measurements may differ significantly from the current measurements presented in this report for a variety of reasons including: changes in applicable laws, changes in plan provisions, changes in assumptions, or plan experience differing from expectations. Due to the limited scope of the analysis, we did not perform an analysis of the potential range of such future measurements.

Please note that contents of this analysis and the October 1, 2021 actuarial valuation report are considered an integral part of the actuarial opinions. In reviewing the results presented in this study, it should be noted that there are risks that may not be inherently apparent to the reader that should be carefully considered. For key risks, please see the Discussion of Risk section of the October 1, 2021 actuarial valuation report.

In performing the analysis, we used third-party software to model (calculate) the underlying liabilities and costs. These results are reviewed in the aggregate and for individual sample lives. The output from the software is either used directly or input into internally developed models to generate the costs. All internally developed models are reviewed as part of the process. As a result of this review, we believe that the models have produced reasonable results. We do not believe there are any material inconsistencies among assumptions or unreasonable output produced due to the aggregation of assumptions.

The changes presented herein are in compliance with Part VII, Chapter 112, Florida Statutes and Section 14, Article X of the State Constitution. The undersigned is familiar with the immediate and long-term aspects of pension valuations and meets the Qualification Standards of the American Academy of Actuaries necessary to render the opinions contained herein.

⁴ Utilizes the 9.68% effective Member Contribution Rate provided in the October 1, 2021 actuarial valuation report prepared by GRS.

The following summaries of valuation assumptions, valuation methods, and plan provisions are as shown in the October 1, 2021 actuarial valuation report prepared by Gabriel, Roeder, Smith and Company.

ACTUARIAL ASSUMPTIONS AND COST METHOD

Both the economic and decrement assumptions were established following the Experience Investigation for the Seven Years Ended September 30, 2017. The investment return and salary increase assumptions have been adjusted in accordance with subsequent analyses. The covered group is too small to provide statistically significant experience on which to base the mortality assumption. Mortality is based on a commonly used mortality table and projection scale.

Valuation Methods

Actuarial Cost Method - Normal cost and the allocation of benefit values between service rendered before and after the valuation date were determined using an **Individual Entry-Age Actuarial Cost Method** having the following characteristics:

- (i) the annual normal cost for each individual active member, payable from the date of employment to the date of retirement, is sufficient to accumulate the value of the member's benefit at the time of retirement;
- (ii) each annual normal cost is a constant percentage of the member's year by year projected covered pay.

Actuarial gains/(losses), as they occur, reduce (increase) the Unfunded Actuarial Accrued Liability.

Financing of Unfunded Actuarial Accrued Liabilities - Unfunded Actuarial Accrued Liabilities (full funding credit if assets exceed liabilities) were amortized by level (principal & interest combined) dollar contributions over a reasonable period of future years.

Actuarial Value of Assets - The Actuarial Value of Assets phase in the difference between the expected actuarial value and actual market value of assets at the rate of 20% per year. The Actuarial Value of Assets will be further adjusted to the extent necessary to fall within the corridor whose lower limit is 80% of the Market Value of plan assets and whose upper limit is 120% of the Market Value of plan assets. During periods when investment performance exceeds the assumed rate, Actuarial Value of Assets will tend to be less than Market Value. During periods when investment performance is less than assumed rate, Actuarial Value of Assets will tend to be greater than Market Value.

Valuation Assumptions

The actuarial assumptions used in the valuation are shown in this Section. These assumptions were established following the Experience Investigation for the Seven Years Ended September 30, 2017, dated March 11, 2019. The mortality assumption is mandated by Chapter 112.63, Florida Statutes.

Economic Assumptions

The investment return rate assumed in the valuation is 7.20% per year, compounded annually (net after investment expenses).

The Wage Inflation Rate assumed in this valuation is 2.5% per year. The Wage Inflation Rate is defined to be the portion of total pay increases for an individual that are due to macroeconomic forces including productivity, price inflation, and labor market conditions. The wage inflation rate does not include pay changes related to individual merit and seniority effects.

The **Price Inflation Rate** assumed this year is 2.5% per year. The Price Inflation Rate is defined to be the long-term rate of annual increases in goods and services.

The assumed **real rate of return** over inflation is defined to be the portion of total investment return that is more than the assumed inflation rate. Considering other economic assumptions, the 7.20% investment return rate translates to an assumed real rate of return over inflation of 4.70%.

Rates of salary increases used are in accordance with the following table. This assumption is used to project a member's current salary to the salaries upon which benefits will be based.

Years of Service	% Increase in Salary		
	Merit and Seniority	Wage Inflation	Total Increase
1 - 5	3.60%	2.5%	6.10%
6 - 10	2.50%	2.5%	5.00%
11 - 15	2.00%	2.5%	4.50%
16 - 20	1.75%	2.5%	4.25%
21+	1.25%	2.5%	3.75%

Demographic Assumptions

The **mortality rates** used in the valuation are based on the PUB-2010 Headcount Weighted Mortality Tables described below, with mortality improvements projected to all future years after 2010 using Scale MP-2018. No mortality improvements are projected for disabled lives:

	Pre-Retirement PUB-2010 Table	Post-Retirement PUB-2010 Table
Female Healthy	Headcount Weighted General Below Median Employee Female Table	Headcount Weighted General Below Median Healthy Retiree Female Table
Male Healthy	Headcount Weighted General Below Median Employee Male Table, set back 1 year	Headcount Weighted General Below Median Healthy Retiree Male Table, set back 1 year
Female Disabled	N/A	Headcount Weighted General Disabled Retiree Female Table, set forward 3 years
Male Disabled	N/A	Headcount Weighted General Disabled Retiree Male Table, set forward 3 years

These are the same rates as used by the Florida Retirement System (FRS) in their July 1, 2021 Actuarial Valuation Report for Regular Class Members (other than K-12 School Instructional Personnel). Florida Statutes Chapter 112.63(1)(f) mandates the use of the same mortality tables from either of the two most recently published actuarial valuation reports of FRS.

The following table presents post-retirement mortality rates and life expectancies at illustrative ages. These assumptions are used to measure the probabilities of each benefit payment being made after retirement:

The rate of retirement is 5% for each year of eligibility for early retirement.

It is assumed that 80% of retirees will enter the DROP and those that do will remain in the DROP for 5 years. For this reason, we assume the COLA will be delayed 4 years from retirement.

Rates of separation from active membership were as shown below (rates do not apply to members eligible to retire and do not include separation on account of death or disability). This assumption measures the probabilities of members remaining in employment.

Changes Since Previous Valuation

- The investment return assumption was lowered from 7.4% to 7.2%.
- Effective October 1, 2021, the period over which changes to the Unfunded Actuarial Accrued Liability (UAAL) was reduced from 29 years to 28 years.

Miscellaneous and Technical Assumptions

<i>Administrative & Investment Expenses</i>	The investment return assumption is intended to be the return net of investment expenses. Annual administrative expenses are assumed to be the average of non-investment related expenses averaged over the last two years. Assumed administrative expenses are added to the Normal Cost.
<i>Benefit Service</i>	Service rounded to the nearest month is used to determine the amount of benefit payable.
<i>Decrement Operation</i>	Disability and mortality decrements operate during retirement eligibility.
<i>Decrement Timing</i>	Decrements of all types are assumed to occur at the beginning of the year.
<i>Eligibility Testing</i>	Eligibility for benefits is determined based upon the age nearest birthday and service nearest whole year on the date the decrement is assumed to occur.
<i>Forfeitures</i>	For vested separations from service, it is assumed that 0% of members separating will withdraw their contributions and forfeit an employer financed benefit. It was further assumed that the liability at termination is the greater of the vested deferred benefit (if any) or the member's accumulated contributions.
<i>Incidence of Contributions</i>	Employer contributions are assumed to be made in full on the first day of the fiscal year. Member contributions are assumed to be received continuously throughout the year based upon the computed percent of payroll shown in this report, and the actual payroll payable at the time contributions are made.
<i>Marriage Assumption</i>	85% of males and 85% of females are assumed to be married for purposes of death-in-service benefits. Male spouses are assumed to be three years older than female spouses for active member valuation purposes.
<i>Normal Form of Benefit</i>	50% joint and survivor annuity; life annuity for members hired after September 30, 2010.
<i>Pay Increase Timing</i>	Middle of fiscal year. This is equivalent to assuming that reported pays represent amounts paid to members during the year ended on the valuation date.
<i>Cost of Living Increase</i>	2.5% per year for Tier A and Tier B members; 1.5% per year for Tier C members. Increases are assumed to begin 4 years after retirement. This assumption reflects the COLA delay for DROP members.
<i>Maximum Benefits</i>	The maximum accrued benefit payable as a life annuity reflects the 415(b) limit (\$230,000 for 2021 for ages 62 through 65). The limitation is projected to increase by 3% per year and is adjusted for other commencement ages based on IRS regulations.
